

Action Plan in response to the PPO Report into the death of Mr Muxsin Awjama 5 October 2023 at HMP Nottingham

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Governor should create a process for adding significant court dates to the safer custody triggers database.	Accepted	The triggers database and process were reviewed in October 2023 and again in early 2024. The current process has been expanded and now includes links to the daily briefing sheet and briefings of all supervising officers. When the Safety Team is alerted to an upcoming court date that could present as a potential trigger, it is added it to the database.	Head of Safety HMPPS	Completed
2	The Governor should ensure that staff respond to requests for information from the PPO in a timely and sufficiently detailed and robust manner.	Accepted	HMP Nottingham will support PPO investigators as they carry out their duties, and will endeavour to respond to all requests in a timely and detailed manner.	Head of Safety HMPPS	Ongoing
