1. The Prisons and Probation Ombudsman aims to make a significant contribution to safer, fairer custody and community supervision. One of the most important ways in which we work towards that aim is by carrying out independent investigations into deaths, due to any cause, of prisoners, young people in detention, residents of approved premises and detainees in immigration centres.
2. If my office is to best assist His Majesty's Prison and Probation Service (HMPPS) in ensuring the standard of care received by those within service remit is appropriate, our recommendations should be focused, evidenced and viable. This is especially the case if there is evidence of systemic failure.
3. On 6 April 2017, Mr John Foreman was sentenced to 14 years in prison for sexual offences. Mr Foreman died from a chest infection, caused by coronary artery disease, on 20 December 2023 while a prisoner at HMP Doncaster. He was 74 years old. We offer our condolences to Mr Foreman's family and friends.
4. The Ombudsman's office wrote to Mr Foreman's next of kin to explain the investigation and to ask if they had any matters they wanted us to consider. They had no questions but asked for a copy of our report.
5. NHS England commissioned an independent clinical reviewer to review Mr Foreman's clinical care at HMP Doncaster.
6. The clinical reviewer concluded that the clinical care Mr Foreman received at Doncaster was of a reasonable standard and at least equivalent to what he could have expected to receive in the community.
7. The PPO investigator investigated the non-clinical issues relating to Mr Foreman's care. We did not find any non-clinical issues of concern. We make no recommendations.
8. The initial report was shared with HM Prison and Probation Service (HMPPS). HMPPS did not find any factual inaccuracies.
9. Mr Foreman's family received a copy of the initial report. They did not reply.
10. At the inquest held on 7 June 2024, the coroner concluded that Mr John Foreman died of natural causes.
