

Action Plan in response to the PPO Report into the death of

Mr Anthony Mitchell on 20 January 2023 at HMP Dartmoor

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Head of Healthcare should ensure that all staff are aware of the normal range for clinical observations, the relevance of finding an abnormal physical observation and action to take when this is noted.	Accepted	<p>Discussed at local team meeting and nursing handover that all clinical staff understand what the normal range is for clinical observations, and what actions should be taken if results fall outside of this range.</p> <p>To be formally communicated at the Quality Assurance meeting which will be minuted as evidence.</p>	Head of Healthcare Oxleas NHS Foundation Trust	October 2023
2	The Head of Healthcare should ensure that prisoners are involved in their end-of-life care where practicably possible and that patient involvement in these discussions is recorded in the clinical notes.	Accepted	<p>Communicated with Healthcare team that any discussions they have with patients regarding their end-of-life care, are clearly recorded in the patients' medical records.</p> <p>To be formally communicated at the Quality Assurance meeting which will be minuted as evidence.</p>	Head of Healthcare Oxleas NHS Foundation Trust	October 2023
