

## Action Plan in response to the PPO Report into the death of Mr Michael Fox on 15/03/2022 following release from HMP Humber

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Head of Healthcare should ensure that prisoners who are assessed as at risk of opioid overdose are provided with a naloxone kit when they leave prison	Accepted	<p>In August 2022, Spectrum Health became the new provider of the healthcare service at HMP Humber.</p> <p>The Head of Healthcare is satisfied that there is a system in place to ensure every prisoner who is active with the Drug and Alcohol Recovery Team (DART) is offered training prior to release with regards to the use of naloxone and is also offered a naloxone kit on release and that staff are aware of this process. DART staff are responsible for collating release dates of all their patients and ensuring naloxone kits are available for their discharge process. On the day of discharge all prisoners identified by DART are offered a naloxone kit within reception prior to release. The discharging nurse must record on SystmOne whether the prisoner has accepted or not accepted the treatment.</p>	Head of Healthcare Spectrum Health	Completed

			<p>Assurance checks are also in place to ensure the appropriate prisoners are identified for the treatment to be issued.</p> <p>A business plan is being considered by commissioners with regards to the use of nasal naloxone. This is easier to administer, but more expensive. Consideration will take place within this financial year.</p>
