

## Action Plan in response to the PPO Report into the death of Mr David Wise on 15 December 2021 at HMP Wandsworth

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Governor should ensure that, as set out in PSI 58/2010, staff provide all relevant material to the Ombudsman.	Accepted	A team meeting will be held for safer custody and security staff where they will be briefed on the importance of providing all crucial information to the Ombudsman in a timely manner. The meeting will also cover the need to secure copies of CCTV footage at the earliest opportunity.	Head of Safer Custody HMPPS	April 2023
2	The Governor should remind staff to switch on their body-worn cameras during reportable incidents and remind control room operators to prompt staff to do so, as set out in PSI 04/2017.	Accepted	<p>Next generation body-worn video cameras (BWVC) were rolled out at the prison in August 2022 and communications were shared with operational staff around the requirement to draw BWVC each day. The importance of turning on cameras to capture footage when incidents occur was emphasised as this contributes towards providing a full picture of events and is a valuable record of the incident.</p> <p>The assurance process for BWVCs is captured within the use of force governance procedures. Additionally, BWVC usage is monitored and recorded daily at the senior management team</p>	Head of Safer Custody HMPPS	Completed

			<p>meeting and usage is challenged when not adequate.</p> <p>When an incident is called through the control room, staff are reminded to activate body-worn video cameras.</p>
