

Action Plan in response to the PPO Report into the death of Mr Patryk Jalocha on 05 November 2024 at HMP Manchester

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	A fabric check on a cell represents an opportunity to consider wider risk factors. The Governor should ensure that his staff are aware of this fact and take due account of any graffiti, handwritten notes, drawings etc. and take further action where appropriate.	Accepted	The Head of Safety at HMP Manchester has confirmed that a Notice to Staff will be issued reinforcing the importance of identifying risk factors in graffiti and ensuring appropriate action is taken.	Head of Safety, HMPPS	June 2025
2	The Governor should introduce a robust assurance process to satisfy himself that all prison staff understand PSI 03/2013 and their responsibilities during medical emergencies, including that staff promptly use an emergency code to communicate the nature of an emergency effectively.	Accepted	HMP Manchester's Standards Coaching Team will conduct briefings on medical emergency response code procedures and will implement a quality assurance process, which includes routine dip testing of staff knowledge to ensure ongoing compliance and understanding. Findings will be reviewed and additional support provided where gaps in knowledge are identified. HMP Manchester has also issued ID-sized cards to all staff entering the prison to remind them of	Head of Safety, HMPPS	September 2025 Completed

		<p>their responsibilities regarding medical emergency response codes. The prison also publishes a Notice to Staff every three months to maintain awareness of medical emergency response code procedures.</p> <p>Additionally, posters have been obtained and displayed prominently in the control room to serve as a visual reminder for staff of their responsibilities when a medical emergency response code is called.</p> <p>Furthermore, New Colleague Mentors incorporate medical emergency response code instructional material into the induction process for all new staff.</p>
