

Action Plan- David Adkins at HMP Whatton on 14/09/16

James	Recommendation	Accepted/Not Accepted	Response	Target date for completion and function responsible
1	The Head of Healthcare should ensure that when a prisoner refuses to have investigations or treatment for a life limiting condition, healthcare staff perform an assessment of their mental capacity and record the results in their medical record.	Accepted	The Head of Healthcare will write to staff providing details of the requirement that when a prisoner refuses treatment for a life limiting condition, a mental capacity assessment is carried out. The results of the assessment must be recorded in medical records. This information will be shared with the Head of Safer Custody and discussed at the local "Patients of Note Meeting" This meeting is health led with GPs in attendance. All prisoners with life threatening and serious illness are discussed, with key senior prison managers in attendance.	April 2017
