

**Action Plan – Ifan McClelland. HMP/YOI Altcourse. NC. 25/03/2017**

No	Recommendation	Accepted/Not Accepted	Response	Target date for completion and function responsible
1	The Head of Healthcare should introduce a care plan for management of chronic diabetes in line with NICE guidelines. This template should be readily available to healthcare staff on SystmOne.	Accepted	A care plan template for the management of chronic diabetes which is in line with NICE guidance is embedded in SystmOne. All staff are aware and have access. Online training modules in diabetes and other LTCs are allocated to all staff for completion.	Completed Head Of Healthcare
2	The Head of Healthcare should ensure that all prisoners with diabetes are provided with education and appropriate support on how to manage their condition and to tailor their diet accordingly	Accepted	All prisoners with diabetes are given regular appointments at Long Term Conditions (LTC) clinics, at which time they are given education and appropriate support on how to manage their condition.	Completed Head Of Healthcare
3	The Head of Healthcare should ensure that in the event of SystmOne being unavailable staff are aware of the importance of documentation in line with the Nursing and Midwifery Code	Accepted	There is a copy of The Code in the nurse's station and staff have been reminded at team meetings of the importance of accurate, timely documentation and record keeping. An online record keeping training module has been introduced and staff given protected time to complete.	Completed Head Of Healthcare
4	The Head of Healthcare should ensure that all healthcare staff are aware of the signs of rigor mortis and when it is appropriate to start CPR in accordance with European Resuscitation Council Guidelines.	Accepted	The Resuscitation Policy has been circulated to all staff and a copy is in the nurse's station. The signs of rigor mortis and other conditions whereby it is not appropriate to start CPR have been discussed at several minuted team briefs. All staff undertake ILS training in line with European Resuscitation Council Guidelines.	Completed Head Of Healthcare
