

No	Recommendation	Accepted/ Not Accepted	Response	Target date for completion and function responsible
1	<p>The Governor should produce clear local guidance about procedures for identifying prisoners at risk of suicide and self-harm and for managing and supporting them. In particular, this should ensure that reception, first night and induction staff, including healthcare staff:</p> <ul style="list-style-type: none"> • Consider all the known risk factors of a newly arrived prisoner and share information when determining their risk of suicide or self-harm. • Review a prisoner's risk when their circumstances change. • Begin ACCT procedures whenever a prisoner has significant risk factors, irrespective of their stated intentions. 	Accepted	<p>An advice note will be produced for all staff to remind them of examples of known risk factors which could potentially raise the risk of suicide or self-harm for a prisoner. A targeted briefing will also be delivered to reception, healthcare and first night staff to reiterate these potential risk factors and available sources of information to consider when assessing a newly received prisoner's risk of suicide and self-harm. This briefing will remind staff of the requirement to share at-risk information, for example on NOMIS (the electronic prison record), along with the reasons for not opening an ACCT.</p> <p>In addition, the briefing will emphasise the need to consider opening an ACCT regardless of a prisoner's stated intention, where staff (including healthcare staff) are aware of significant risk factors. Local processes ensure that following a change in a prisoner's circumstances, staff will consider the prisoner's risk level and whether an ACCT should be opened.</p>	<p>31st July 2016</p> <p>Head of Safer Prisons</p>
2	<p>The Governor should ensure that all newly arrived prisoners are appropriately supported in a suitable environment. When the vulnerable prisoners unit is full, appropriate alternative arrangements should ensure that vulnerable prisoners held elsewhere in the prison have a full</p>	Accepted	<p>It is rare for any vulnerable prisoner to be located on any other wing other than the vulnerable prisoners unit, and location elsewhere is agreed as a last resort when spaces are not available. Where a prisoner cannot be located in the vulnerable prisoner unit, a new monitoring and regime protocol introduced on 18 July 2015 will apply, which will</p>	<p>31st July 2016</p> <p>Head of Residence</p>

	regime, equivalent to other prisoners, and are checked regularly by a nominated officer to ensure their wellbeing.		advise staff of the need to ensure prisoners receive access to the regime, and that there is sufficient monitoring of welfare during this period.	
3	The Governor and Head of Healthcare should give clear guidance to staff about the circumstances in which resuscitation is inappropriate.	Accepted	The Head of Healthcare will ensure that staff are provided with the guidance that will be issued by NOMS. This has been developed by NHS England to support prison and healthcare staff in making a decision as to whether or not resuscitation is required. The guidance has been taken from the European Resuscitation Council Guidelines for Resuscitation 2015, which supports current national guidance from the British Medical Association and Royal College of Nursing.	31 st July 2016 Head of Healthcare NOMS Equality, Rights and Decency Group
