

Action Plan- Leslie Hammond. HMP Birmingham. NC. 12/08/2017

No	Recommendation	Accepted/Not Accepted	Response	Target date for completion and function responsible
1	The Head of Healthcare should ensure that all new prisoners are offered a general health assessment, in line with Prison Service Order 3050. Staff should follow up non-attendance and record the reasons in their SystmOne medical record	Accepted	<p>An action place to ensure all prisoners are offered a general health assessment within 7 days of reception was put into place in September 2017; however this has not resulted in all prisoners being seen due to multiple factors (clinic cancellations and movement off first night centre included).</p> <p>The newly designed induction wing and induction plan commencing in February 2018 should enable all prisoners coming through reception to be booked into and attend a general health assessment through the wellman clinic within 5 days of reception. All non-attendance and the reason will be documented on SystmOne. This will be monitored every month.</p>	<p>23 March 2018</p> <p>Head of Healthcare</p>
2	The Head of Healthcare should ensure that healthcare staff are fully aware of the risk factors for cardiovascular disease and appropriately investigate any diagnosis of fatty liver.	Accepted	Clinical Lead GP has issued guidance on the risk factors, identification and appropriate investigation and diagnosis of fatty liver to all GP's who work within HMP Birmingham.	<p>Completed</p> <p>Clinical Lead GP</p>
3	The Head of Healthcare should ensure that there is a process for obtaining urgent reviews of ECG readings when prisoners report chest pains.	Accepted	The current pathway is that if the ECG records an abnormal reading this is urgently reviewed by a GP if on site or contact is made with the out of hours GP service for advice. The nurse can at any time request an emergency ambulance if their clinical assessment indicates this is appropriate. If there are no 'red flags' for chest pain and a normal ECG recording is taken the prisoner is booked into a GP slot within 24 hours or by the out of hours GP	<p>Completed</p> <p>Head of Healthcare</p>

			<p>on a Sunday.</p> <p>HMP Birmingham is currently scoping the use of portable ECG machines that are instantly read and reported on by a cardiac service to further improve the urgent response.</p>	Head of Healthcare
4	The Director and Head of Healthcare should ensure that staff use an emergency response code to communicate the nature of a medical emergency, in line with national and local instructions.	Accepted	A new Emergency Response Policy, which includes the use of Code Blue and Code Red, was published in January 2018. This policy refers to PSI 03/2013 and informs staff of their responsibilities during medical emergencies. This policy was communicated to all staff via a notice to staff and staff briefings by January 2018.	Completed Head of Safer Custody
