

Action Plan- HMP Isle of Wight. NC. Mr Ernest Fisher. 11/10/2017

No	Recommendation	Accepted/Not Accepted	Response	Target date for completion and function responsible
1	The Governor and Head of Healthcare should ensure that all staff undertaking risk assessments for prisoners taken to hospital understand the legal position, and that assessments fully take into account the health of the prisoner and are based on the actual risk the prisoner presents at the time.	Accepted.	All staff undertaking risk assessments for prisoners taken to hospital fully understand the legal position as detailed in Mr Graham's 2007 High Court case. HMP Isle of Wight has amended the risk assessment process used to consider the risk each prisoner presents each time they are taken to outside hospital and more detailed medical assessments are now completed. However, a further update to the process will be made to ensure that all relevant details pertaining to the risk presented by the prisoner at the point of discharge to outside hospital are included.	End of April 2018. Head of Operations.
