

Action Plan – Kenneth Jones - Guys Marsh NC 01/06/2017

No	Recommendation	Accepted/Not Accepted	Response	Target date for completion and function responsible
1	The Governor should review the effectiveness of the radio network to ensure that staff can communicate appropriately in an emergency.	Accepted	<p>Hytera (Tetra radio) support to review signal and coverage of the radio network especially in connection with Cambria wing. Effective measures will then be taken to address the risk by placing any relevant boosters or other remedial action.</p> <p>Additionally, should staff not receive a response to their call over the radio net they have been instructed to immediately move to a new location and try again whilst alerting staff in the immediate vicinity of the need for assistance. Should there still be issues with transmission then staff should go to the nearest telephone and dial the emergency number 222. This will alert the staff in the Control Room of an emergency situation.</p>	<p>April 2018</p> <p>Head of Security</p>
