

Action Plan - Neale Francis James HMP Lewes NC 22/07/2017

No	Recommendation	Accepted/Not Accepted	Response	Target date for completion and function responsible
1	The Head of Healthcare should ensure that staff are aware of and understand NICE guidance and undertake cardiovascular risk assessments when appropriate.	Accepted	<p>In line with National guidance, all prisoners over the age of 40 years are offered an NHS Health check once a year. All healthcare staff are aware of this in order to carry out their work. All staff have been informed via team meetings/staff briefings.</p> <p>In line with National guidance, all prisoners over the age of 40 years are offered an NHS Health check once a year. All healthcare staff are aware of this in order to carry out their work. There is a specific clinic for NHS Health checks for prisoners meeting the criteria overseen by the clinical lead. A report tracking the eligibility of prisoners is produced at monthly intervals.</p>	Complete Head of Healthcare
2	The Head of Healthcare should ensure that staff know how to detect and manage hypertension.	Accepted	All staff will be offered refresher training on the detection and management of hypertension. A rolling programme to manage this will be implemented in January 2018 and led by the Matron who is the clinical lead for this.	31 January 2018 Head of Healthcare
