

Action Plan – Mr Lloyd Brown at HMP Woodhill – Natural Cause on 15/07/2018

No	Recommendation	Accepted/Not Accepted	Response	Target date for completion and function responsible
1	The Head of Healthcare should ensure that all clinical staff are aware of the risk factors for pulmonary embolism and complete a Wells score and, where appropriate, a D-dimer blood test on all patients with relevant symptoms.	Accepted	<p>Deputy Head of Healthcare (Primary Lead) has now completed a Wells Score folder for each GP surgery area (in March 2019).</p> <p>A local policy is ready on this subject, and will provide guidance to staff about the risk factors for pulmonary embolism, completion of a Wells score and D-dimer blood test where appropriate; this will be promulgated at the regular CNWL learning days throughout the year.</p>	<p>Complete</p> <p>Head of Healthcare</p>
