

Action Plan – Mr Frederick Bailey at HMP Northumberland – Natural Causes on 03/03/2019

No	Recommendation	Accepted/Not Accepted	Response	Target date for completion and function responsible
1	The Head of Healthcare should ensure that in line with the national vaccination schedule for prisoners over 65 years old, staff are aware of and offer the pneumococcal vaccination.	Accepted	Pneumococcal vaccination was added to the vaccination schedule in April 2019. An attached record shows that compliance is at 100% vaccination rate for eligible patients. This is monitored on a monthly basis and reported to NHS England. A regional strategy will be implemented for the approach to immunisations and vaccinations to ensure continued compliance.
