

Action Plan – Mr Robert Mellor at HMP Leeds – Natural Causes on 11/07/2019

No	Recommendation	Accepted/Not Accepted	Response	Target date for completion and function responsible
1	The Governor should ensure that decisions to remove or reduce the level of restraints are communicated immediately to bedwatch staff.	Accepted	The existing process stipulates that on completion of a new risk assessment for any prisoner subject to a bedwatch, the Duty Governor who authorises the change in risk assessment is to contact the officer in charge of the bedwatch to communicate effective changes, these are to be documented on the existing risk assessment in the section titled Review of Hospital Assessment. This will then trigger the necessary changes with immediate effect until the new risk assessment is taken to the bedwatch. All Risk Assessment Authority Signatories were emailed the above instruction (September 2019) including the necessity for immediate communication.	Complete Security
