## Our Vision

To carry out independent investigations to make custody and community supervision safer and fairer.

## Our Values

We are:

**Impartial:** *we do not take sides*

**Respectful:** *we are considerate and courteous*

**Inclusive:** *we value diversity*

**Dedicated:** *we are determined and focused*

**Fair:** *we are honest and act with integrity*

The Prisons and Probation Ombudsman aims to make a significant contribution to safer, fairer custody and community supervision. One of the most important ways in which we work towards that aim is by carrying out **independent** investigations into deaths, due to any cause, of prisoners, young people in detention, residents of approved premises and detainees in immigration centres.

My office carries out investigations to understand what happened and identify how the organisations whose actions we oversee can improve their work in the future.

Mr Leslie Salmon was murdered on 6 August 2017 at Burdett Lodge Approved Premises in Derby. Mr Salmon was 44 years old. I offer my condolences to Mr Salmon's family and friends.

Resident X, a fellow resident at Burdett Lodge, stabbed Mr Salmon repeatedly causing severe injuries. Mr Salmon was taken to hospital but died shortly afterwards. Resident X subsequently pleaded guilty to Mr Salmon's murder and was sentenced to life imprisonment with a minimum term of 25 years.

Resident X told police that he had murdered Mr Salmon because he was a bully and a homophobe. While staff spoke to Mr Salmon in response to allegations from residents that he had been verbally abusive and made homophobic remarks, I am concerned that staff did not monitor Mr Salmon's bullying behaviour sufficiently or take appropriate action when there were repeated incidents. This did not, however, justify Resident X's attack on Mr Salmon.

Staff did not receive any other information that indicated that Resident X's risk had increased or that he intended to murder Mr Salmon. With the information that they held, I am satisfied that they managed the risk that he presented appropriately and could not have predicted the murder.

I am also concerned that Resident X told police he got the knife that he used to murder Mr Salmon from one of Burdett Lodge's kitchen cupboards, where it had been hidden. Staff need to conduct searches of communal areas to ensure that prohibited items are not accessible to residents.

Resident X's attack on Mr Salmon, which took place in the garden of Burdett Lodge, was highly distressing for those who witnessed it. I am disappointed that the residents who witnessed Mr Salmon's murder were not offered a move elsewhere, despite this option being given to the staff who had witnessed it.

This version of my report, published on my website, has been amended to remove the names of staff and residents involved in my investigation.

Background Information .....	5
Key Events .....	6
Findings.....	10

# Summary

## Events

1. On 10 April 2017, Mr Leslie Salmon was released on licence from HMP Nottingham, after serving a sentence for violent offences, and was required to live at Burdett Lodge Approved Premises in Derby.
2. On 1 June, Mr Salmon was verbally abusive to staff and other residents culminating in him fighting with another resident. The following day, staff gave Mr Salmon a final written warning about his behaviour.
3. On 21 June, Resident X was released on licence from HMP Ranby, after serving a sentence for false imprisonment and violent offences, and was also required to live at Burdett Lodge.
4. On 21 July, two residents told a Probation Support Worker that Mr Salmon had made homophobic comments to one of them. When the worker spoke to Mr Salmon about this, Resident X entered the conversation and said that Mr Salmon was a bully and being homophobic. The worker arranged for Mr Salmon to apologise to the resident to whom he had made the comments.
5. On 31 July, a Probation Officer and a Probation Support Worker noted that Mr Salmon had been drinking and was trying to cause problems with two other residents. They sent Mr Salmon to bed.
6. On the evening of 2 August, Mr Salmon tested positive for alcohol with a result of 1.14mg (the drink drive limit in England and Wales is 0.35mg of alcohol per 100 millilitres of breath). A staff member told him to go to his room and if he failed to comply then there would be consequences which could include consideration of recall. Before going to his room, Mr Salmon was abusive towards other residents.
7. On the evening of 5 August, Resident X breached his curfew by not returning to Burdett Lodge. A Senior Probation Officer agreed to initiate his recall, which was completed shortly before 1.00am on 6 August.
8. At approximately 11.50am on 6 August, Resident X returned to Burdett Lodge and spoke with two members of staff about why he had failed to return. They sent Resident X to the kitchen for a cup of tea, which allowed one of them to call Derbyshire Police to ask them to send a unit to arrest him.
9. Resident X went into the garden and repeatedly stabbed Mr Salmon with a knife. Staff and other residents tried to stop Resident X but were unable to do so. At 12.14pm, police officers arrived at Burdett Lodge and arrested Resident X. An ambulance arrived at 12.22pm and Mr Salmon was taken to hospital with severe injuries. At 1.59pm, a hospital doctor confirmed that Mr Salmon had died.
10. Resident X told police that he murdered Mr Salmon because he bullied other residents and made homophobic comments. He was subsequently convicted of Mr Salmon's murder and sentenced to life imprisonment with a minimum term of 25 years.

## Findings

### Management of Resident X's Risk

11. Resident X's only negative interaction with Mr Salmon happened on 21 July and staff managed his involvement appropriately. We are satisfied that there is no record that staff at Burdett Lodge received any information that Resident X's risk had increased or that he intended to murder Mr Salmon. We are satisfied that with the information that they had, they managed Resident X's risk appropriately and could not have predicted Mr Salmon's murder.

### Bullying

12. In July and August, there were several incidents of Mr Salmon bullying, being abusive and being homophobic towards other residents. Although staff spoke to Mr Salmon about his behaviour, we are concerned that they did not monitor Mr Salmon more closely or the impact on those subject to his abusive behaviour, nor did they pass this information to his Offender Manager. We are also concerned that staff did not consider whether to transfer Mr Salmon or recall him to prison, despite having given him a final warning about his behaviour on 2 June.
13. We are also concerned that Burdett Lodge's bullying policy does not contain any additional strategies to protect vulnerable residents.

### Searches of communal areas

14. When interviewed by the police, Resident X said he found the knife that he used to murder Mr Salmon in one of the kitchen cupboards. Access to knives is highly regulated in approved premises and we are concerned that he was easily able to access a knife. We consider that staff should search communal areas on a regular but random basis to ensure that residents have not hidden knives and that access to knives is appropriately managed and accounted for.

### Support for residents

15. The attack on Mr Salmon was witnessed by a number of staff and residents, some of whom tried to intervene but were threatened by Resident X. This was a highly distressing event to witness. We are concerned that the residents who saw Mr Salmon's murder were not given the option of moving elsewhere, despite this option being given to the staff who had witnessed the murder.

## Recommendations

- The manager of Burdett Lodge should ensure that all information indicating bullying or intimidation on whatever grounds is recorded and investigated in line with national policies and that relevant information is passed to the resident's Offender Manager so that it can be acted on.
- The Approved Premises Manager should ensure that a policy is implemented that requires all AP staff and residents to act with dignity and respect. There should be a robust process in place for ensuring there is a clear audit trail for any information indicating bullying and intimidation to be fully investigated and the victim appropriately supported.

- The Deputy Director of the Midlands Division of the National Probation Service should ensure that staff consider transferring or recalling any approved premises resident who has bullied or intimidated other residents, particularly if subject to a final written warning.
- The manager of Burdett Lodge should ensure that all communal areas are searched on a regular and random basis, with all prohibited items seized and disposed of and access to controlled items appropriately managed and accounted for.
- The Director of the National Probation Service should ensure that any staff member or resident who witnesses a murder or similarly traumatic event at an approved premises is given the option of moving to another approved premises.

## The Investigation Process

16. The investigator issued notices to staff and residents at Burdett Lodge Approved Premises informing them of the investigation and asking anyone with relevant information to contact him. No one responded.
17. The investigator visited Burdett Lodge on 30 August 2017. He obtained copies of relevant extracts from Mr Salmon's and Resident X's probation records. Following this, our investigation was suspended for five months while Derbyshire Police completed their investigation into Mr Salmon's murder.
18. The investigator and an Assistant Ombudsman interviewed three members of staff at Burdett Lodge on 14 February 2018. The investigator interviewed two members of staff and two residents at a probation office in Chesterfield and a Derbyshire County Council office in Ilkeston on 15 February.
19. We informed HM Coroner for Derby and South Derbyshire of the investigation who gave us the results of the post-mortem examination. We have sent the coroner a copy of this report.
20. One of the Ombudsman's family liaison officers contacted Mr Salmon's family to explain the investigation and to ask if they had any matters they wanted the investigation to consider. They wanted to know what steps were taken to arrest Resident X when he returned to Burdett Lodge, what incidents had occurred between Mr Salmon and Resident X and what steps were being taken to prevent similar issues in the future.
21. Mr Salmon's family received a copy of the initial report. They did not raise any further issues, or comment on the factual accuracy of the report.
22. The initial report was shared with the National Probation Service. They did not find any factual inaccuracies and their action plan is annexed to this report.

# Background Information

## Burdett Lodge Approved Premises

23. Approved premises (formerly known as probation or bail hostels) accommodate offenders released from prison on licence and those directed to live there by the courts as a condition of bail. Their purpose is to provide an enhanced level of residential supervision in the community, as well as a supportive and structured environment.
24. The National Probation Service manages Burdett Lodge Approved Premises in Derby. It has 29 bedrooms and there is a kitchen and dining area that the residents can use. A key worker is allocated to each resident to oversee their progress, wellbeing and adherence to licence conditions and the premises' rules. Probation Service employees are on duty 24 hours a day to monitor residents' behaviour and report to their offender manager.

## Previous deaths at Burdett Lodge

25. Mr Salmon was the first resident to die at Burdett Lodge since August 2014.

## Key Events

### Mr Leslie Salmon

26. On 10 April 2017, Mr Leslie Salmon was released on licence from HMP Nottingham, after serving a sentence for violent offences.
27. Mr Salmon's licence conditions required him to live at Burdett Lodge Approved Premises in Derby and be on the premises, initially, between 7.00pm and 7.00am and then, from 11 May, between the normal national curfew of 11.00pm and 6.00am. He also had to behave appropriately and address his alcohol use with the Aquarius Substance Misuse Service in Derby. Mr Salmon understood that if he breached his licence conditions, he could be recalled to prison.
28. A Probation Support Officer completed a Risk Management Plan for Mr Salmon. She assessed that he presented a high risk to the public and that he could demonstrate aggressive and threatening behaviour. She considered that Mr Salmon could reduce the risks he presented by reducing his alcohol consumption and addressing his behaviour. She instructed probation staff to test him for alcohol on a daily basis.

### Resident X

29. On 21 June, Resident X was released on licence from HMP Ranby, after serving a sentence for false imprisonment and violent offences.
30. Resident X's licence conditions required him to live at Burdett Lodge and be on the premises between 11.00pm and 6.00am. He also had to behave appropriately, comply with alcohol and drug testing, and inform his Offender Manager if he started an intimate relationship with a woman. He understood that if he breached his licence conditions he could be recalled to prison.
31. A Probation Support Officer completed an Approved Premises Risk Management Plan for Resident X. She assessed that he presented a high physical risk to the public, particularly if in conflict with anyone. She considered that he could reduce the risks he presented by reducing his alcohol consumption and learning to manage his emotions. She instructed probation staff to test him for alcohol and drugs on a daily basis.

### Significant events leading up to Mr Salmon's murder

32. On 1 June, a Probation Support Officer saw Mr Salmon act in an abusive and threatening manner towards members of staff and other residents. After being escorted back to his room, Mr Salmon returned to the ground floor and verbally abused other residents. He then fought with another resident, which led to him dislocating his shoulder. Mr Salmon went to hospital for treatment but returned with a smell of fresh alcohol on his breath. The following day, the manager of Burdett Lodge told Mr Salmon's Offender Manager that Mr Salmon had been lucky not to be recalled and that he wanted Mr Salmon to be given a formal warning.
33. The following day, Mr Salmon's Offender Manager met with him and gave him a final written warning about his behaviour. During the meeting, Mr Salmon

apologised for his behaviour and said that he had been drinking after receiving bad news. Mr Salmon's Offender Manager told the investigator that Mr Salmon seemed contrite about his actions but that he had been told that further violent and aggressive behaviour would result in him being recalled.

34. On 22 June, Resident X breached his curfew by returning to Burdett Lodge at 11.55pm. A member of staff tested Resident X's breath, which was positive for alcohol with a result of 0.71mg. The following day, a Probation Support Officer sent a warning letter to Resident X saying that further breaches of Burdett Lodge's rules could lead to him being evicted or recalled to prison. Staff also amended his curfew and decided that he had to be at Burdett Lodge between 9.00pm and 6.00am.
35. On 14 July, Mr Salmon's Offender Manager received an email from an alcohol support worker at Aquarius who said that Mr Salmon engaged appropriately throughout the session and was maintaining his abstinence from alcohol.
36. Also on 14 July, Resident X's Offender Manager saw Resident X, who said that he did not wish to return to prison, that he had stopped drinking and that he was attending alcohol awareness sessions with Aquarius.
37. On 20, 22 and 27 July, Resident X's breath was positive for alcohol, at 0.20mg, 0.11mg and 0.17mg respectively. As the results were below the drink drive limit in England and Wales of 0.35mg, staff did not take any action, though Resident X's Offender Manager did speak to him about the reasons for his usage.
38. On 21 July, two residents told a Probation Support Worker that Mr Salmon had made homophobic comments to one of them two days earlier. She spoke to Mr Salmon about the homophobic comments and he denied having any issues at Burdett Lodge but did not specifically deny making the comments. Resident X entered the conversation and said that Mr Salmon was bullying and being homophobic. The Probation Support Worker spoke to Mr Salmon at length about his comments and she arranged for the residents involved to apologise to each other.
39. That same day, a Probation Officer spoke to Mr Salmon about his homophobic comments and advised him to be careful what he said to other residents. Mr Salmon said that other residents made comments to him but he ignored them.
40. Later that day, Mr Salmon's Offender Manager saw Mr Salmon to discuss the homophobic comments. Mr Salmon said that he was not homophobic, that the incident had been blown out of proportion and that he now knew to be careful what he said around other residents. Mr Salmon's Offender Manager reminded him that he had to remain abstinent from alcohol.
41. On 31 July, two Probation Support Workers noted that Mr Salmon had been drinking and was trying to cause problems with two other residents. One of the Probation Support Workers sent Mr Salmon to bed and he followed this instruction. There is no record that staff tested Mr Salmon's breath for alcohol.
42. At 8.25pm on 2 August, Derbyshire Police escorted Mr Salmon back to Burdett Lodge, as he said that a friend had prevented him from leaving his house so he had called the police. A Probation Support Officer tested Mr Salmon's breath,

which was positive for alcohol with a result of 1.14mg, and she told him to go to his room or be recalled. She also referred the matter to his Offender Manager.

43. On 4 August, Mr Salmon's Offender Manager saw Mr Salmon to discuss his alcohol use over the past week and concerns that it was escalating. Mr Salmon said that the staff at Burdett Lodge were not concerned about his use of alcohol, though his Offender Manager explained that he would be recalled if it continued. Mr Salmon also said that unspecified residents were trying to wind him up and had called him "Rocky", which he did not like. His Offender Manager helped him look at his emotional management and strategies to avoid conflict. He also asked Mr Salmon not to drink excessive amounts of alcohol, though he agreed to Mr Salmon's request to have one drink while watching a football match. Mr Salmon's Offender Manager told the investigator that Mr Salmon had "mouthed off" to other residents when he had returned to Burdett Lodge on 2 August.
44. That evening, Resident X breached his personal curfew by returning to Burdett Lodge at 9.20pm. He told a Probation Support Worker that he saw an old friend and had not wanted to appear rude by saying goodbye. She tested Resident X's breath, which was positive for alcohol with a result of 0.46mg, and told him to speak to his Offender Manager about attending alcohol awareness sessions.
45. On 5 August, Resident X breached his curfew as he did not return to Burdett Lodge. At 11.00pm, a Probation Support Officer noted that Resident X had not attempted to contact Burdett Lodge or answered calls to his phone. She checked with Derbyshire Police and the Royal Derby Hospital and found that they had no record of him being in police custody or in hospital. She then spoke to a Senior Probation Officer acting as a Tier 1 on-call manager, who subsequently consulted with a Senior Tier 2 Manager and it was agreed that Resident X needed to be recalled to prison. The Tier 1 on-call manager then telephoned the Out of Hours Recall Section of the Ministry of Justice. The Ministry of Justice would then notify New Scotland Yard for the recall to be placed on the Police National Computer (PNC). At 0.45am on 6 August, the Probation Support Officer sent a courtesy email to both the Offender Manager and Derbyshire Police advising that a recall was being processed.

### **Morning of 6 August 2017**

46. At approximately 11.50am on 6 August, Resident X unexpectedly returned to Burdett Lodge and spoke with two Probation Support Workers in the main office. Resident X said that he had failed to return to Burdett Lodge because he had spent the night with a woman. He also asked for his pregabalin and diazepam medication and whether he was going to be recalled. Neither of the Probation Support Workers answered his question about being recalled but said that they would find his medication and that he should go to the kitchen for a cup of tea. Once Resident X left the office, one of the Probation Support Workers telephoned Derbyshire Police to inform them that Resident X had returned to Burdett Lodge and asked them to send a unit to arrest him. The other went to find his medication.
47. After leaving the office, Resident X went into the garden and spoke briefly with Mr Salmon and another resident before going to the kitchen. During his interview with Derbyshire Police, Resident X said that he went to the kitchen to collect a

knife, as he planned to carve splinters from one of the wooden picnic benches. Resident X then returned to the garden at 11.58am and, after a brief argument, he repeatedly stabbed Mr Salmon with the knife. Resident X also stamped on Mr Salmon's head, kicked him in the face and struck him with a broom handle and a pole. Staff and other residents witnessed the murder and attempted to intervene, though Resident X threatened to hurt them.

48. After being unable to stop Resident X, the staff locked the door from the kitchen to the garden, which trapped Resident X in the garden. At 12.14pm, police officers arrived at Burdett Lodge and arrested him.
49. Derbyshire Police's control room knew that Resident X had stabbed Mr Salmon so they arranged for an ambulance to go to Burdett Lodge. An ambulance arrived at 12.22pm and paramedics attempted to treat Mr Salmon. At 12.52pm, the paramedics took Mr Salmon to the Royal Derby Hospital and he arrived eight minutes later. Hospital staff tried to treat Mr Salmon but his injuries were too severe and at 1.59pm, a doctor confirmed that Mr Salmon had died.

### **Contact with Mr Salmon's family**

50. As Derbyshire Police were investigating Mr Salmon's death, they asked for all family contact to be made through the police's family liaison officers. The manager of Burdett Lodge offered his condolences and support to Mr Salmon's family when they visited Burdett Lodge.
51. Mr Salmon's funeral was held on 13 October 2017 and Burdett Lodge paid for the costs of the funeral in line with national instructions.

### **Support for residents and staff**

52. Due to the involvement of Derbyshire Police, the manager of Burdett Lodge was unable to hold a hot debrief with the staff who had witnessed Mr Salmon's murder. In the following days, the Approved Premises Area Manager arranged for a psychologist and counsellors to support the staff and residents on a group and one-to-one basis. Senior managers also arranged for the staff who had witnessed the murder to take special leave and not return to Burdett Lodge.
53. Staff at the approved premises informed other residents, who were not present when Mr Salmon died, about his death in person when they returned to Burdett Lodge. They also posted notices informing other residents of Mr Salmon's death, and offering support.

### **Post-mortem report**

54. The post-mortem report confirmed that Mr Salmon's death was caused by cuts to his neck, with multiple cuts to other parts of his body. The post-mortem also found the presence of blunt force trauma injuries, consistent with being punched, kicked and stamped on, though these did not cause or contribute to Mr Salmon's death.
55. The toxicology report found no alcohol or illicit substances in Mr Salmon's blood.

# Findings

## Management of Resident X's Risk

56. Before Resident X breached his curfew on 5 August, he had only twice come to the attention of Burdett Lodge staff; on 22 June, when he breached his curfew and gave a positive alcohol sample and on 21 July, when he told staff that Mr Salmon was bullying and being homophobic. Neither of these incidents indicated that Resident X was going to murder Mr Salmon and we are satisfied that staff managed both incidents appropriately. We are also satisfied that there is no record that staff at Burdett Lodge had been given any information, including from Aquarius or from other residents, that Resident X's risk had increased or that he intended to murder Mr Salmon. On that basis, we are satisfied that Burdett Lodge managed Resident X's risk appropriately and that they could not have predicted the attack.

## Bullying

57. Probation Instruction (PI) 32/2014 'Approved Premises Manual' sets out the strategies that approved premises should follow to protect vulnerable residents who are at risk from other residents. This includes that staff should keep an eye on residents who are being bullied and who are bullying, and that they should take action when bullying occurs, including seeking a transfer or a recall to alleviate the problem. It also states that approved premises should implement strategies for managing vulnerable residents.
58. Burdett Lodge's bullying policy copies the content of PI 32/2014 and does not introduce any additional strategies.
59. On 1 June, Mr Salmon received a final written warning, as he had been abusive and violent towards other residents. Although his behaviour initially improved after the warning, on 21 July, three residents told a Probation Support Worker that Mr Salmon was bullying and being homophobic towards certain residents. Other staff noted that he abused other residents on 31 May and 2 August. During this period, probation staff spoke to Mr Salmon about his behaviour and encouraged him to apologise to the other residents but there is no record that they took any other action. We note that Mr Salmon's Offender Manager also spoke to Mr Salmon about his behaviour but he told the investigator that Burdett Lodge staff did not always elaborate on who was involved in the incidents with Mr Salmon and he had not been aware that Resident X had accused Mr Salmon of being a bully.
60. When interviewed by Derbyshire Police, Resident X said that he had murdered Mr Salmon because he was bullying, verbally abusing and being homophobic towards other residents. He said that this had been reported to staff at Burdett Lodge but that they had not done anything to stop Mr Salmon's behaviour.
61. While we note that staff spoke to Mr Salmon about his behaviour and his language, we are concerned that they underestimated the impact that it had on other residents and overestimated Mr Salmon's willingness to stop bullying other residents. We are also concerned that staff did not keep an eye on Mr Salmon and the residents that he was bullying, which meant that further incidents took

place, nor did they disclose relevant information to his Offender Manager. We are also concerned that although Mr Salmon had been given a final written warning and had engaged in three further episodes of negative behaviour, there is no record that staff considered transferring or recalling him.

62. We are also concerned that Burdett Lodge does not have a written bullying policy containing strategies that staff can use to protect vulnerable residents from bullying or intimidation. We make the following recommendations:

**The manager of Burdett Lodge should ensure that all information indicating bullying or intimidation on whatever grounds is recorded and investigated in line with national policies and that relevant information is passed to the resident's Offender Manager so that it can be acted on.**

**The Approved Premises Manager should ensure that a policy is implemented that requires all AP staff and residents to act with dignity and respect. There should be a robust process in place for ensuring there is a clear audit trail for any information indicating bullying and intimidation to be fully investigated and the victim appropriately supported.**

**The Deputy Director of the Midlands Division of the National Probation Service should ensure that staff consider transferring or recalling any Approved Premises resident who has bullied or intimidated other residents, particularly if subject to a final written warning.**

#### Searches of communal areas

63. PI 32/2014 sets out the processes that should be followed to ensure that approved premises are safe and secure. This includes that the premises' kitchen knives should be kept in a locked safe and that searches of rooms and residents' cars should be conducted on either a random or an intelligence-led basis.
64. When interviewed by Derbyshire Police, Resident X said he had found the knife that he used to murder Mr Salmon in one of the kitchen cupboards. He said that residents used the knife to cut cheese and other foods, and to prevent the need for them to ask staff for one of the official kitchen knives.
65. The manager of Burdett Lodge told the investigator that staff at Burdett Lodge do not routinely undertake thorough searches of communal areas. When staff do enter communal areas, they will only check that the area is clean and tidy.
66. While it is possible that Resident X lied about how he came into possession of the knife, we are concerned that, if it is true, the lack of thorough communal searches allowed him to access the knife. As knives are highly regulated in approved premises, we consider that staff should search communal areas on a regular but random basis to ensure that residents have not hidden knives that could be used to harm staff or other residents. We make the following recommendation:

**The manager of Burdett Lodge should ensure that all communal areas are searched on a regular and random basis, with all prohibited items seized and disposed of and access to controlled items appropriately managed and accounted for.**

## Support for residents

67. Two members of staff and two residents saw Mr Salmon's murder. Following his death, senior managers gave the two staff members special leave and ensured that neither of them had to return to Burdett Lodge. There is no evidence that anyone offered the residents who witnessed the murder the choice of moving to another approved premises or other suitable location. We consider that the same level of support should have been offered to all who witnessed Mr Salmon's murder to allow them the best chance of recovery. We make the following recommendation:

**The Director of the National Probation Service should ensure that any staff member or resident who witnesses a murder or similarly traumatic event at an approved premise is given the option of moving to another approved premises.**
