2	<p>The Governor should discuss the Graham judgment and its implications with all managers taking decisions about the use of restraints for prisoners taken to hospital and ensure that they fully understand the legal position, that assessments take into account the health of a prisoner, and are based on the actual risk the prisoner presents at the time.</p>	Accepted	<p>All managers have been reminded that risk assessments must be carried out in line with the Graham judgement. They will be based on a consideration of the individual's circumstances and the actual risk that the prisoner presents at the time, whilst also giving regard to the individual's risk of escape and risk to the public.</p> <p>Escort staff are instructed to keep in regular contact with the prison and immediately to report any significant change in circumstances to the prisoner's condition, and this would prompt a review of the risk assessment. The risk assessment is also reviewed daily as part of the escort management check.</p>	<p>Head of Security</p> <p>Completed</p>
