

Action Plan – Mr David Page at HMP Swaleside – Natural Causes on 28/02/2020

No	Recommendation	Accepted/ Not Accepted	Response	Target date for completion and function responsible
1	The Head of Healthcare should ensure that care planning is person-centred and addresses the specific needs of prisoners.	Accepted	The Head of Healthcare and Clinical Nurse Manger will ensure that care plans reflect the needs of an individual. Staff will be required to undertake yearly updates on this subject and the records will be subject to clinical audit to ensure compliance and to drive quality.	Complete Head of Healthcare
2	The Head of Healthcare should ensure that staff working in the palliative care suite have the appropriate training and education in caring for prisoners with palliative and end of life care needs.	Accepted	<p>The End of Life Nurse lead has undertaken updated awareness training with the wisdom hospice in February 2020 and has shared this learning with the In-patient team via team training days scheduled each month. She will also provide the clinical supervision and mentorship of the In-patient team as part of an ongoing process. Updates will be provided to the team twice a year on caring for end of life patients</p> <p>Staff will have this training included in their development plans and reviewed as part of their annual reviews and revalidation.</p> <p>Training has been accessed in partnership with community colleagues.</p>	Complete Head of Healthcare
