

Action Plan – Mr Derek Humphries at HMP Stafford – Natural Cause on 15/04/2020

No	Recommendation	Accepted/ Not Accepted	Response	Target date for completion and function responsible
1	The Governor should ensure that staff immediately request an ambulance once a medical emergency code is radioed.	Accepted	Notices were relayed to staff in June 2020 to remind them of this responsibility and the Control Room have a notice that also iterates the need for an ambulance to be called for a code blue. An understanding of the instructions has been followed up in several verbal QA's on the Control Room operatives who have all stated they would call an ambulance immediately at a Code Blue being raised.	Complete Head of Safer Custody
