

**Action Plan – Mr Jordan White– HMP Durham- Unclassified- 07/08/2018**

| <b>No</b> | <b>Recommendation</b>   | <b>Accepted/Not Accepted</b> | <b>Response</b>  | <b>Target date for completion and function responsible</b> |
|-----------|---|------------------------------|--|--|
| 1         | The Governor should ensure that the key drug issues at Durham are identified and that the prison's local drugs strategy is revised to ensure that these key issues are being addressed. | Accepted                     | A new National Drug Strategy was published in April 2019, along with guidance for prisons and a good practice guide. HMP Durham's strategy will be reviewed and updated to ensure all key issues and initiatives are included. It is expected that the review will be completed by end of May 2019. Whilst the new strategy is being formalised, work will continue to address current identified issues.            | Head of Security<br>May 2019                               |
| 2         | The Head of Healthcare should ensure that prisoners only receive in-possession medication after a consistent recorded risk assessment that is regularly reviewed.                       | Accepted                     | <p>The healthcare reception template now includes a medication in possession risk assessment (MIPRA). All new receptions have a MIPRA completed on initial reception screening.</p> <p>Prescribing clinicians also have access to the MIPRA to enable them to update and consider when prescribing clinically appropriate medication.</p> <p>A weekly audit identifies any MIPRA that requires a 6 month review.</p> | Head of Healthcare<br>Completed                            |
