

Action Plan - Lee Taylor - HMP Lancaster Farms - ONN - 21/10/2017

No	Recommendation	Accepted/Not Accepted	Response	Target date for completion and function responsible
1	The Governor and Head of Healthcare should review the provision of emergency equipment and ensure that it is appropriate and adequate for dealing with prisoners suffering the effects of PS.	Accepted	<p>The Head of Healthcare has undertaken a review of emergency equipment within the healthcare department and is satisfied that this meets the needs of medical emergencies, including for men reported to be under the influence of psychoactive substances. A manual suction pump is available within the healthcare department for use by healthcare staff.</p> <p>Consideration will now be given to the training of night staff on the use of a manual suction pump and how this equipment could be accessed outside of healthcare hours.</p>	<p>Completed Head of Healthcare</p> <p>1 June 18 Head of Drug Strategy and Wellbeing</p>
2	The Governor should reiterate to all staff the importance of carrying and using breathing masks for life support.	Accepted	A Notice to Staff was published in May 2018 reminding staff where they can locate breathing masks for life support and setting out responsibility and requirements for re-stocking. All residential units have two resuscitation breathing masks located between each unit	Completed Safer Custody
