

Action Plan – Mr Ronald Mowbray at HMP Hewell – Natural Causes on 01/04/2020

No	Recommendation	Accepted/ Not Accepted	Response	Target date for completion and function responsible
1	The Head of Healthcare should ensure that a process for requesting and obtaining special diets for prisoners who are unable to eat a normal diet is in place. The Governor should ensure that there is daily management of the provision of special diets so that such requests are met.	Accepted	From September 2020, a robust process has been implemented to ensure that those identified by healthcare as requiring a special diet are centrally logged and checks are carried out by prison management to ensure that these are made available appropriately	Complete Head of safety
2	The Head of Healthcare should review the procedures in place to screen for malnutrition, to include the use of screening tools such as MUST (Malnutrition Universal Screening Tool).	Accepted	From October 2020, the Clinical Services Manager will ensure 'MUST' scoring is undertaken for all patients with a BMI less than 18 as part of the Care UK 'Managing adult malnutrition by mouth' pathway. MUST Scoring is to be included in the 'Food refusal' care plan. The Clinical Services Manager will ensure that all clinical staff will be informed by a 'Notice to Staff' and receive appropriate training.	Complete Head of Healthcare
