1	The Governor and Head of Healthcare should ensure that all staff undertake risk assessments for prisoners taken to hospital, understand the legal position and that assessments fully take into account the health of a prisoner and are based on the actual risk the prisoner presents at the time.	Accepted	The Head of Healthcare and the Head of Security have commenced a review of the manner in which health care staff contribute to the escort risk assessment process. Where medical in confidence issues permit, health care staff will provide information of any serious medical condition and mobility which would limit an individual's risk to the public and risk of escape if circumstances were to provide the individual with the opportunity to do so.
