1	The Governor should ensure that all prison staff understand that they should administer basic life support as needed until healthcare staff arrive.	Accepted	<p>The Head of VP Residential will meet individually with those involved to ensure they are following national and local protocols in terms of administering basic life support as needed until healthcare staff arrive. The following instruction will be reinforced:</p> <p><i>In particular if you are one of the first on scene and you find an individual in a life threatening medical situation, you must immediately check for signs of life. You must initiate basic life support if you are trained to do so, or summon a First Aider via the radio net and continue with basic life support until Healthcare staff arrive.</i></p> <p>This will be followed up by a management advice letter which sets out the Ombudsman’s findings and recommendation and the discussion that occurred so that lessons are learned.</p> <p>Additionally, we designed a new Safety Prompt PowerPoint slide which we attached to the Daily Operational Safety Briefing and this was sent out globally to all staff to raise awareness and to act as a reminder. This occurred every day for 1 week and contained guidance about the NHS Ambulance guide and what signs to look for when requiring the immediate calling of an ambulance. The ERIC Card (Emergency Response in Custody) was displayed on this briefing with colour coded references to Code Red / Code Blue and the respective symptoms and immediate mandatory actions required.</p> <p>This PowerPoint slide was then sent as a separate global email to all staff employed by HMP Wymott.</p>	<p>February 2021 (subject to COVID-19)</p> <p>Head of VP Residential</p>
