1	The Governor should ensure that staff make appropriate entries in the records of prisoners with dementia, or other forms of cognitive impairment, to help ensure that they are consistently reminded of important information and that any continuing needs are addressed.	Accepted	A Notice to staff was sent out to all staff in August 2021 highlighting the importance of reminding prisoners with dementia or cognitive impairment of important information, as well as ensuring the continuing needs are met. Keywork staff in particular will be responsible for this, as they will link in with them on a fortnightly basis.	Safer Custody	Complete
