

# Action Plan in response to the PPO Report into the death of Mr Roger Key on 26/05/2021 at HMP Bullingdon

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Head of Healthcare should consider alternative ways to obtain a full set of vital sign observations for prisoners who are unable to cooperate with finger probe assessments of their oxygen saturations or have a peripheral vascular impairment.	Accepted	Staff have undergone and continue to undergo specific training on measuring and monitoring patient's observations. This includes not just relying on equipment but visual observations such as respiratory rate as well.  Staff will all be undergoing recognition of sepsis training and how to manage this.	Clinical Matron/ Practice Plus Group	31 March 2022
