

# Action Plan in response to the PPO Report into the death of

Terrence Eastwood on 02/10/2021 at HMP Wymott

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Head of Healthcare should ensure healthcare staff document that prisoners are isolating or shielding due to COVID-19 to ensure that staff delivering care and interventions are aware of any restrictions and considerations required.	Accepted	Due to the prisoner being on a shielding wing this was not documented; this is a lesson learnt and all staff were reminded to document this on the records.	Greater Manchester Mental Health NHS Foundation Trust (GMMH)	28/2/22
2	The Head of Healthcare should ensure that prison GPs, Advanced Nurse Practitioners and Community Matron are aware of NICE guidance for suspected cancer and how to refer to appropriate services. This will allow for early identification of disease.	Accepted	The Head of Healthcare has reminded the prison GPs, Advanced Nurse Practitioners and the Community Matron, of the NICE guidance with regards to suspected cancer by way of written guidance. This included the process of making referrals to appropriate services.	Head of Healthcare GMMH	21/6/22
3	The Head of Healthcare should ensure that SystmOne records include details of discussions, actions and outcomes when prisoners are discussed at complex case meetings.	Accepted	Staff have been reminded of the importance of documentation and to ensure that all MDT meetings and discussions are clearly documented in the healthcare records.	GMMH	28/2/22
