

Action Plan in response to the PPO Report into the death of Mr Ronald Hudson on 28.03.2021 at HMP Humber

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Head of Healthcare should ensure that all prisoners with an elevated BMI are identified and recorded in medical records as clinically vulnerable and at increased risk of developing serious complications from COVID-19, in line with Public Health England (PHE) Guidance: Excess weight and COVID-19: insights from new evidence (July 2020).	Accepted	<p>All patients with any underlying conditions or any other vulnerabilities including elevated BMI are to be monitored using National Early Warnings Score (NEWS).</p> <p>This will be documented within patient records to ensure correct follow up care is provided.</p> <p>Record keeping audits will be completed and dip tested regularly to provide assurances of patient care and follow up practices.</p> <p>Long term condition standard operating procedure (sop) is being reviewed.</p>	CHCP Clinical manager and operational manager	January 2022

2	The Head of Healthcare should ensure that record keeping is in accordance with the Nursing Midwifery Council (NMC) Code 2018, which says that records should always be clear and accurate; and that this should include adequately detailed information on a significant event.	Accepted	Documentation training and reviews to be conducted with all staff. Regular audits of patient records to be undertaken to provide accountability of care.	CHCP Clinical manager and operational manager	January 2022
3	The Head of Healthcare should ensure that when a prisoner is in hospital, healthcare staff maintain daily contact with the hospital for updates on the prisoner's condition; and if contact is not possible, the reasons for this should be recorded in the prisoner's medical record.	Accepted	<p>Primary Care staff to maintain daily contact with hospital staff following an acute or planned hospital admission and to fully document any contact, including the documentation of failed contacts where hospital staff are inaccessible. This is to be monitored daily by the Primary Care lead nurse as part of the daily Governance checks and discussed in clinical supervision.</p> <p>Healthcare Managers are to then ensure that any relevant information shared during the Governor's morning brief regarding inpatient updates are dip tested to ensure accurate documentation. This will be fed back to the teams in clinical supervision and staff meetings.</p>	CHCP Clinical manager and operational manager	January 2022
