

Action Plan in response to the PPO Report into the death of Mr Arif Butt on 29/10/2021 at HMP Littlehey

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Head of Healthcare should ensure that when a prisoner with capacity declines an assessment and/or intervention for a long-term health condition, the associated risk of continued refusal is discussed with the prisoner at all future contacts and the discussion outcome is clearly recorded in the SystemOne records.	Accepted	<p>The management of long-term health conditions are monitored through nurse lead clinics comparable with the wider community. Only at these appointments we would discuss the continued refusal to adhere to any intervention or treatment relating to this condition. This then would be clearly documented on SystemOne.</p> <p>However, during the COVID-19 pandemic all care delivered was centred around emergency care in line with the NHS guidelines and the wider community.</p>	Head of Healthcare	Complete
