1	The Head of Healthcare should ensure that clinical observations are completed for all prisoners returning from a hospital in-patient admission in order to recognise a 'failed discharge' if applicable.	Accepted	<p>All staff have completed hospital life support (HLS) training, this includes clinical observations. This training also included the clinical observations required following a patient returning from hospital to identify appropriate discharge and action to take if felt an unsafe discharge.</p> <p>All staff that are HLS trained have completed National Early Warning Score (NEWS2) E-Learning module. This was face to face training, on site held in November 2022 as an annual refresher.</p>	Head of Healthcare	November 2022
