

Action Plan in response to the PPO Report into the death of Mr Michael Davie on 3/1/2022 at HMP Ashfield

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Head of Healthcare should ensure referrals to secondary services are completed in line with NICE guidance.	Accepted	<p>It is accepted that documentation could be improved to provide better clarity to this decision, however appropriate referrals to secondary services were made in line with NICE guidance.</p> <p>It is not unusual for patients to have impaired cognitive function when in a hospital setting, particularly due to physical inactivity and infection in this case.</p> <p>The team will consider TVN referral as per BNSSG guidelines "wounds that have been present for more than 6 weeks, failing to heal, deteriorating or complex".</p>	Head of Clinical Services, Hanham Secure Health	September 2022
2	<p>The Head of Healthcare should:</p> <ul style="list-style-type: none"> • create a Standard Operating Procedure for tissue viability; 	Accepted	Work is being developed to create booklet on local formulary and a flow chart for guidance on wound care.	Head of Clinical Services, Hanham Secure Health	December 2022

	<ul style="list-style-type: none"> • ensure patients with tissue viability needs have a formal individualised care plan; and • provide staff with refresher training on wound management. 		<p>Current wound care template is not user friendly. This is to be revised to include care plan completion as part of this work.</p> <p>Development of flow chart, training for staff and implementation of the flowchart to be completed within 3 months. An audit to follow at 6 months to monitor compliance with the local flowchart, formulary and individualised patient care plans.</p>		
3	The Head of Healthcare should confirm that an audit of prisoners with long-term conditions has been carried out and that all prisoners with long-term conditions now have care plans in place.	Accepted	<p>Long term conditions audit is already on our annual audit plan and audited regularly.</p> <p>The most recent audit undertaken was in January 2023, there was 100% compliance rate for all care plans for Long term conditions, except for COPD, where the compliance rate was less at 60%, this was solely due to the patients not accepting the offer of a print out of the care plan.</p>	Head of Clinical Services, Hanham Secure Health	Complete
4	The Director should ensure that vehicles used to transport prisoners meet their mobility needs.	Accepted	The Director will ensure there is a vehicle suitable to meet prisoners mobility needs.	Director	May 2022
