1	The Head of Healthcare should ensure that healthcare staff undertake and record a full set of physical observations to guide them in the management of prisoners who present with an illness.	Accepted	This will be reiterated in the daily team briefings and added to the rolling agenda. This will also be reinforced in the healthcare admission and discharge policy (currently in draft). 2	The Head of Healthcare should review the process of discharging prisoners from the healthcare unit onto the prison wings.	Accepted	There is a new admission and discharge policy that has been produced, this is currently in draft stages and is awaiting ratification with the health board.
