

Action Plan in response to the PPO Report into the death of Mr Malcolm Bull on 10 September 2023 at HMP Stocken

Rec No	Recommendation	Accepted / Not accepted	Response Action Taken / Planned	Responsible Owner and Organisation	Target Date
1	The Head of Healthcare at HMP Stocken is to ensure that all staff are trained and competent in the usage of the NEWS 2 scoring system and that all staff document a NEWS 2 score with every full set of physical observations to give a clear indication of the deteriorating patient	Accepted	<ol style="list-style-type: none"> 1) All clinical staff in primary care will read the Practice Plus Group, Health in Justice guiding framework and policy around National Early Warning Score 2 (NEWS2). They will sign and date an attached sheet to the policy, which confirms the information has been read and understood. 2) The recommendation in the PPO report will be discussed within the Healthcare Quality & Improvement Assurance meeting in February 2024. 3) The action will be added to "The Weekly Word" newsletter which is emailed to all healthcare staff (including agency & bank staff). This is also printed and displayed within healthcare departments. 	Head of Healthcare Practice Plus Group	February 2024
2	The Head of Healthcare is to ensure that all palliative care patients have a regular pressure ulcer risk	Accepted	<ol style="list-style-type: none"> 1) All primary care clinical staff in healthcare will be required to complete the Practice Plus Group learning package – "Pressure 	Head of Healthcare Practice Plus Group	February 2024

	<p>assessment score in accordance with NICE Clinical Guideline CG 179 and that all staff are trained and competent in pressure ulcer risk assessment.</p>		<p>Ulcer Risk Assessment” This is within the Practice Plus Group learning management system.</p> <ol style="list-style-type: none">2) The Deputy Head of Healthcare will ensure all clinical staff within primary care are competent in pressure ulcer risk assessment.3) All palliative care patients are discussed within the Multi-Professional Complex Case Clinic and have an agreed care plan. This will include a regular pressure ulcer risk assessment score in accordance with NICE Clinical Guideline CG 179
