(10.03 am)

LORD TURNBULL: Good morning, Mr Rafferty.

MR RAFFERTY: Good morning, sir.

Sir, the evidence will begin this morning from a Mr David Hugh McSwiggan, who will tell you that he was a survivor of the Omagh bomb. He is sitting opposite me and he's accompanied by his two brothers and other members of his family, with us this morning.

Sir, Mr McSwiggan has provided the Inquiry with a witness statement.

So Mr McSwiggan, in due course, when you're ready, please begin to read that out.

Personal statement of DAVID McSWIGGAN (read)

MR MCSWIGGAN: Thank you.

My name is David Hugh McSwiggan. I am 46 years old and this is my personal statement to be submitted as witness evidence to the Omagh Bombing Inquiry as part of the Commemorative Hearings.

It must be acknowledged that those physically injured or who lost loved ones have suffered a great deal more than I or anyone can understand. This statement has been written with great difficulty, however I hope that sharing my experience will allow the Inquiry to gain a greater degree of understanding and

3.00 pm. While we were hanging around the junction of High Street, Market Street and Scarfe's Entry, a police car came to an abrupt stop, skidding in the centre of the junction. A number of police emerged and began to tell pedestrians to move away from the Court House in the High Street area, due to a bomb warning.

This didn't initially seem strange, as we had grown up with security alerts and bomb scares, which had usually always come to nothing. We moved with the majority of pedestrians and shoppers down Market Street towards the junction with Dublin Road and Campsie Avenue. On our way, we met Pauline again, who had been evacuated from the shop she worked in. We congregated on the roadway outside McElroys shoe shop and Mr G's Discount Store among a crowd of hundreds of people, waiting to be given the all-clear to return to their place of work.

I was facing downhill standing in a small circle with my friend, David, and Pauline. Our chat was sceptical of the bomb scare at the Court House being real as The Troubles usually happened in other places and that our wee town, as much as the backwater that it was, did not merit to be a target now, especially as The Troubles were supposed to be over.

Suddenly an immense force seemed to bring the

3

insight into the long-term traumatic effect of non-physical injury.

The 15 August 1998 was one week after my 20th birthday. I was home for the summer after completing the first year of art college and was soon to start a degree at university in England the following month, so this was always intended to be the last few weeks living in my home town before I moved on to bigger and better things, I hoped. Saturday was my day off from working part time as a cleaner in the local hospital. My mother also worked at the hospital as a nurse in the operating theatre.

Late that morning I had got a lift into town with my dad who always went in to put a bet on in the bookies on Saturday afternoons. I met with my friend, David Beattie and our plan was to meet up with friends who were going to be putting on a breakdancing show at the community carnival that was supposed to be taking place later that evening in Grange Park. We met David's girlfriend, Pauline, who was working part-time in a local shop during her lunch break. We spent the afternoon hanging around killing time in music shops, charity shops and book stores.

We wandered up to the tourist office, where we hoped to meet our breakdancing friends at around

bricks of the buildings tumbling, disintegrating around us. A dark, dusty, smokey blackness just seemed to envelop everything, then heat and fire. I lost all sense of gravity and all sound became muffled. The air seemed to be full of objects large and small moving with force. I think I was being blown backwards off my feet through the air. I felt as if I had landed inside something like a trailer or a car windscreen. I think I may have been unconscious for a period of time.

The next thing I remember is climbing out of whatever I had landed in. There was heat, smoke, flame and debris surrounding me and instinct told me to get to safety. The street had been completely transformed. There were lifeless, injured and trapped people everywhere, buildings collapsing onto the street. There was something burning very hot and fiercely near where we had been standing moments earlier and, further down the street, there was a crater, a large hole in the road. There were people in the crater, a person who hadn't a stitch of clothes left was alive and had limbs torn off. Another had severe stomach lacerations.

The hole in the street was filling up with water. The pipes had burst and water was mixing with people's blood and running in rivulets down the street. I just couldn't believe what I was seeing. My ears were

4

1 ringing, screams of agony and fear were distant and
 2 muffled. I smelled and tasted melted plastic, burnt
 3 hair and burnt flesh.
 4 As I was moving towards the bottom of the street
 5 emerging from the epicentre of smoke and flames and
 6 wreckage, I made it to the middle of the junction. It
 7 seemed everyone behind me was dead or had horrific
 8 injuries. I didn't want to find out what had happened
 9 to my body, especially my hands and arms, because
 10 I needed them to be an artist. So while afraid,
 11 I looked down incredulous to find my hands still intact.
 12 I was immediately horrified by the thought that my
 13 friends must be among the dead or injured. So
 14 I re-entered the smoke and flames calling the names of
 15 my friends. I immediately had the problem of not being
 16 able to breathe properly and being driven away by smoke
 17 and heat. I started looking at the dead or injured to
 18 see if I could recognise my friends by their clothing or
 19 hair colour. This proved very difficult as people were
 20 burned, covered in blood, their hair was singed and
 21 there were torn bits of people everywhere. I selfishly
 22 wanted to find my friends alive. I couldn't cope with
 23 what I was experiencing. I felt terrible that I wasn't
 24 doing anything to help the injured people but I just
 25 wanted to find my friends and didn't want to believe

5

1 looking for signs of them, while trying not to see and
 2 be overwhelmed by the horrific devastation. My friends
 3 had been together and I remembered David had been
 4 wearing a blue tracksuit top, so I was scanning the
 5 devastation looking for it, trying to filter out the
 6 carnage that an explosion had just inflicted on a crowd
 7 of hundreds of people. Some images sear my mind to this
 8 day. A person broken, thrown like rag doll on their
 9 back, blown through and now framed in a shop window.
 10 A young man, his clothes saturated by bleeding, sitting
 11 upright on the street. I think my brain hasn't allowed
 12 memories to be made properly from this point onwards.
 13 I repeated the cycle of going in and retreating
 14 from the seat of the explosion to search and call out
 15 for my friends a number of times, until I couldn't
 16 handle it anymore. I didn't know if they had been taken
 17 to hospital or had been blown to tiny bits, too injured
 18 for me to recognise them. Eventually, I found myself
 19 emerging own the other side of the devastation further
 20 up Market Street. This was the area that had been
 21 previously evacuated so the street was almost completely
 22 deserted now, except for uninjured people approaching
 23 the scene.
 24 I made my way back up the street and arrived
 25 outside the tourist office. I realised that I had to

7

1 that any of this was happening.
 2 As I returned to the clear air at the bottom of
 3 the street, a young woman screamed in fright and horror
 4 when she looked at me. I think I had blood coming from
 5 a cut on my forehead that had run down my face.
 6 I stood in the middle of the crossroads, my hands
 7 on my head, my hair felt like candy floss, singed. Ears
 8 were ringing. The roadway was filled with confused and
 9 frightened people running, standing, sitting, lying.
 10 Many were injured, in shock, their mouths crying,
 11 shouting, screaming but I could only hear ringing in my
 12 ears. By this time, police, firemen and members of the
 13 public had arrived and were attempting to respond to the
 14 devastation.
 15 Injured people were being put into a car.
 16 A fireman in uniform, recording with a video camera was
 17 standing in the road outside Slevin's Chemist as a blue
 18 and white Ulsterbus arrived from Drumragh Avenue. Staff
 19 from Ulsterbus were trying to get injured people onto
 20 the bus to go to hospital. I couldn't see anyone I knew
 21 among the crowd of bleeding, blackened and singed
 22 survivors.
 23 I returned again to the centre of the devastation
 24 to see if I could find my friends. Shielding my face
 25 with my hands, I was calling out my friends' names and

6

1 contact my family to let them know that I was okay and
 2 to alert my mother who was a theatre nurse at the local
 3 hospital. There was a trance-like unreality to the now
 4 empty silent Saturday afternoon street, contrasting
 5 greatly with the devastation only metres down the town
 6 and the busy normality before it. People began to
 7 emerge on the street. A woman was distributing water
 8 bottles and I was among a small group of people around
 9 her thankfully taking them.
 10 My hearing was beginning to return and I heard
 11 somebody say that there might still be another bomb at
 12 the Court House that not yet gone off. Panic
 13 immediately rippled among the few people on the street
 14 and I found myself running with others as people
 15 scattered to seek shelter. I ran through the door of
 16 the tourist office and jumped over the counter and
 17 crouched down behind the desk with two panicked women
 18 who worked there. When things calmed down and there was
 19 no secondary explosion, they let me use the phone to
 20 call my family home five miles outside the town. My
 21 brother answered and put me on to my mother.
 22 I told her that there had been a bomb in the town,
 23 that I was okay but my friends were missing and there
 24 had been many casualties and that she and her colleagues
 25 were desperately needed at the hospital. Selfishly, all

8

1 I wanted then at that moment was the comfort and
2 security that only a mother can provide but also knew
3 that nothing would ever be the same for us again. She
4 too would have to see the depraved obscenity I had just
5 witnessed inflicted on our neighbours. It's awful to be
6 the person to bring news like this to anyone.

7 I agreed to walk out the road towards our house
8 and hopefully she'd pick me up as she was driving into
9 the hospital. As I walked through the streets towards
10 the Domore Road area, it was obvious that news of the
11 explosion hadn't yet reached this end of town. It felt
12 strange to be passing people on the street, walking or
13 stuck in the traffic jam, who didn't yet know what was
14 happening and how this information was going to change
15 our lives forever.

16 I arrived at a petrol station and was approached
17 by a girl I used to go to primary school with. She said
18 I looked like I had been working as a mechanic because
19 my face and hair and clothes were blackened. She said
20 she had just seen my mother driving past like a maniac
21 and wondered what was happening. I told her there
22 had been a bomb in the town centre. She understood the
23 words but I realised I couldn't express to anyone the
24 magnitude of what I had just walked away from.

25 I got in a car and someone drove me the long way

9

1 that day, doing her duty to help people in need. I am
2 immensely proud of her. Her professionalism and that of
3 her colleagues was so sorely and cruelly tested that
4 day.

5 I have few memories of the days and weeks
6 following. Pauline was in hospital in Belfast severely
7 burned and was going to lose part of her leg. We had
8 all been supposed to go to a big music festival in Slane
9 the following weekend but I gave my ticket to my cousin.

10 Six weeks later, I found myself at university in
11 Coventry in England, far away from anybody who'd been
12 affected by the bomb, trying to plough on and just
13 forget about what had happened. I remember that year in
14 England as a period of loneliness, humiliation
15 depression and anxiety in an unfamiliar, unsympathetic
16 place.

17 I'm only starting to realise, over two decades
18 later, that this became my normalised expectation of the
19 world and established a pattern of living as far as away
20 from Omagh as possible, having fleeting contact with
21 family members back home, basically trying to lose
22 myself and dilute the intensity of what I experienced.
23 Over the next two decades I studied at art college in
24 Dublin, trained as an English teacher, lived and worked
25 in Prague and Seville, eventually moving back to Ireland

11

1 round town avoiding traffic to my grandmother's house
2 near the hospital. The house was deserted and I let
3 myself in. Something told me that it might be a good
4 idea to start crying because of what had happened but
5 I found that I was unable to. I still hadn't found my
6 friends and the thought of what might have happened to
7 them was overwhelming me. Soon my auntie and
8 grandmother and my father arrived. Thankfully they
9 hadn't been in the town centre that afternoon and were
10 unscathed. They wanted me to go to hospital to get
11 checked over for injuries but the thought of seeing any
12 more injured and suffering people was too much.
13 I attended the hospital the following day and was
14 treated for a sprained ankle, superficial shrapnel cuts,
15 minor burns and a perforated eardrum.

16 My dad walked the short distance to the hospital
17 to see if he could find out any information on my
18 friends. He returned sometime later with news that my
19 friends were alive but Pauline was seriously injured and
20 going to the operating theatre. My father drove us both
21 home. I didn't see my mother until she returned from
22 the hospital early on Sunday morning. She said she had
23 treated someone she had known without a tooth left in
24 their head. She has never again spoken about what she
25 experienced. I can't comprehend what she went through

10

1 and settling in Belfast in 2009.

2 The effect trauma was having and how it affected
3 relationships to those around me wasn't always
4 perceptible to me. I had had no real normal adult life
5 previously to compare to. The idea that you could be in
6 your local town on a Saturday afternoon and then
7 everyone is rounded up and killed in front of you, and
8 nobody really knows why or how or who did it and you're
9 supposed to just go on with your life and never mention
10 it again, attempting to rationalise that just never
11 allowed me to sit right with the world. I attempted to
12 compartmentalise what had happened in order to go about
13 daily life.

14 I found my experiences alienated me from my peers.
15 It didn't seem right to talk to people in the disco, at
16 college, at work about being disturbed by unwanted
17 images of carnage. Even when I met beautiful
18 intelligent woman and fell in love, even when living and
19 working in beautiful cities, contributing as an English
20 teacher, helping people to communicate, even when
21 I became a father in 2011, it was always easy to see how
22 the worst could happen in any given situation.
23 Hypervigilance made it very difficult to remain calm
24 around other people.

25 I developed multiple maladaptive coping mechanisms

12

1 and compulsions, engaged in risk-taking behaviours in
2 order to suppress the insomnia, the nightmares, the
3 flashbacks of varying intensity. There have been very
4 few days in the years since that have been unperturbed
5 by intrusive thoughts and imagery from that day.

6 Panic attacks started being a real problem around
7 2004. After a bout of bronchitis, I thought I would
8 stop breathing if I didn't concentrate on every breath,
9 that my lungs would collapse like Pauline's had done and
10 I would die. This bothered me greatly for a number of
11 years. I only learned to control these respiratory
12 panic attacks through breathing exercises but I often
13 still have sleep apnoea and night terrors.

14 I had no zone of tolerance for the normal ebb and
15 flow of life's experience. My behaviour became
16 characterised by emotional outbursts and chaotic
17 responses. In professional and personal relationships,
18 I was unable to accept any criticism and became hyper
19 defensive or aggressive. Other times, I would just shut
20 down and freeze. Many normal situations I perceived as
21 an attack, an assault or injustice that I had to defend
22 against or flee from. I would never be relaxed enough
23 to feel safe or would be passive and unresponsive when
24 energy was required professionally, interpersonally or
25 sexually.

13

1 just an incredibly selfish person or had an addictive
2 personality. I learned to act normal or as normal as
3 possible. Young people have lots of energy and
4 creativity and are able to compensate and paper over the
5 cracks but at some stage you just run out of energy to
6 hold the whole act together.

7 I couldn't see then that anxiety, depression and
8 unhealthy coping mechanisms were robbing me of the
9 focus, growth and maturity required for career or
10 personal development and adult responsibility. I was
11 unwilling to fully acknowledge what was happening. It
12 wasn't until the tensions built up to such an extent,
13 causing the collapse of the 18-year relationship with my
14 partner, nearly losing access to my beloved son, the
15 loss of my long-term teaching job and dropping out of my
16 master's degree, that I then seriously sought help.

17 I had to fight to get access to proper long-term
18 mental healthcare. For a number of years, symptoms have
19 sometimes been overwhelming, making me unable to return
20 to work, resume studies in urban planning at Queen's
21 University and I've only sporadically been able to find
22 relief in developing my art practice.

23 It's only recently since 2022 that I've had access
24 to proper trauma-informed psychotherapy through Belfast
25 Trust and support from WAVE in Omagh. I have also been

15

1 Life often felt frenzied, moving from one crisis
2 to the next, always on the verge of being overwhelmed.
3 It was difficult to make long-term plans or achieve any
4 goals because by mind was always working on just basic
5 survival. All of these symptoms became magnified when
6 I became a father, realising the responsibility of being
7 an effective co-parent. This destroyed my relationship
8 with my then partner, made my work life exhausting and
9 made it impossible to follow my ambition to be
10 a practising visual artist.

11 Over the years, my partner begged me to seek help.
12 I tried to access counselling and help from GPs, which
13 often failed, either because I didn't trust them to know
14 what they were dealing with or I was unwilling to fully
15 acknowledge and unable to describe what was happening.
16 I just told them what they wanted to hear so I could go
17 back to the maladaptive coping mechanisms which were
18 propping up my life and masking the tension of
19 untreated, unacknowledged trauma building up inside me.

20 How could I seek sympathy, care or understanding
21 for myself when I hadn't been torn apart, burnt, killed
22 or had that done to a family member? Sometimes
23 I thought maybe I did die there or maybe it would have
24 been better off for everyone if I had died there.
25 I wanted to believe that my behaviour was because I was

14

1 prescribed antidepressant and anti-anxiety medication.
2 This care has enabled me to feel confident enough to
3 look at the trajectory of my life since the event.
4 Until this, I didn't have the vocabulary, courage or the
5 awareness to describe or understand how trauma was
6 playing out detrimentally in my relationships and
7 experience of the world.

8 I was very lucky to have had a long-term partner
9 and will always cherish the time we were together but
10 I realise now that the relationship took a great deal of
11 the emotional strain. My partner shouldn't have had to
12 have been my carer. I'm very ashamed of what I put her
13 through. I can't comprehend how disappointed she must
14 have felt when it became apparent that the person she
15 had invested so many years of her life in, the man she
16 thought she loved, the father of her son, had just been
17 a facade that was now fragmenting to reveal nothing more
18 than a frightened child behind it. We have lived apart
19 for nearly seven years and parent our son separately.

20 I know now that trauma arrests development.
21 Trauma stops growth. Until this has been acknowledged,
22 no healing can begin. I experienced a quarter of
23 a century of rupture before realising this and began any
24 attempt at repair. I hope now, for my sake and my
25 son's, that I haven't begun my healing journey too late.

16

1 I hope that my sharing this and the testimony of
2 others who were present or affected by the events in
3 Omagh that day will lead to renewed abhorrence for all
4 violence, be it committed by state or non-state actors;
5 will contribute to a greater understanding of trauma and
6 its long-term effects on the individual and society,
7 leading to earlier diagnosis, intervention and better
8 long-term care to help survivors adapt, manage their
9 symptoms and live to their true potential.

10 Thank you very much.

11 **MR RAFFERTY:** Thank you, Mr McSwiggan. Sir, that completes
12 the evidence from Mr McSwiggan this morning.

13 **LORD TURNBULL:** Mr McSwiggan, I would like to thank you for
14 the strength which you've displayed in being prepared to
15 give evidence to this Inquiry. You have provided the
16 Inquiry with a detailed, articulate and insightful
17 account, not just of the destruction and trauma caused
18 by the immediacy of the bombing but also of its lasting
19 effects on the life of a 20-year old young man.

20 What your evidence helps to illuminate is
21 something which has been touched upon in the evidence of
22 some other witnesses, namely that the victims or
23 survivors of the bombing were not just those who were
24 killed or those who suffered from serious physical
25 injury. You gave the Inquiry a very powerful account of

17

1 to begin reading your statement, please.

2 **Personal statement of JIM SHARKEY (read)**

3 **MR SHARKEY:** Okay, thank you. Can you hear me all right?

4 **MR RAFFERTY:** We can, Mr Sharkey, thank you.

5 **MR SHARKEY:** I ran the newsagents at 42 Market Street,
6 trading as Carlands Newsagents. I've lived my whole
7 life in Omagh. I was born here in 1952 and had owned
8 the business for six years.

9 On the day of the bomb it was a warm day. There
10 was a carnival to be coming through the town later that
11 evening. I had been working all Saturday morning in the
12 newsagents. In the afternoon, I went for lunch with
13 a friend to Bogan's Bar. I had intended taking the rest
14 of the afternoon off to listen and watch football
15 results coming up. It was whilst I was in Bogan's
16 someone had said there was a bomb scare up at the Court
17 House.

18 When I came out of Bogan's, I met three girls who
19 worked in Wattersons drapery store, Geraldine Breslin
20 Ann McCombe and another girl that worked there. We had
21 a bit of banter.

22 We had a bit of banter when I told them I was
23 taking the rest of the afternoon off.

24 I made a wee mistake here.

25 Market Street had been a great street to work in.

19

1 the utterly disruptive consequences of being exposed to
2 events as of the magnitude of the Omagh bombing.

3 It was also helpful and informative to learn of
4 your negative experiences of seeking counselling and
5 other help and of the eventual path which has led to
6 effective trauma-informed psychotherapy. This is
7 something which the Inquiry will wish to give further
8 thought to in due course.

9 On a different note, I would very much like to
10 echo your observations about the contribution made by
11 your mother and the other medical and hospital staff who
12 responded to the quite extraordinary demands placed upon
13 them. So thank you very much for your contribution.

14 **MR RAFFERTY:** Thank you, sir. Can I ask you to rise for 20
15 minutes, please.

16 **(10.34 am)**

17 **(A short break)**

18 **(11.00 am)**

19 **LORD TURNBULL:** Mr Rafferty.

20 **MR RAFFERTY:** Sir, the personal statement that you will next
21 receive is from Mr James or Jim Sharkey. Jim has
22 provided the Inquiry with a statement which he will read
23 out. He's attending here this morning with his daughter
24 Karen, who sits to his right-hand side.

25 So Mr Sharkey can I invite you in your time just

18

1 All the workers and staff from the various commercial
2 premises, we were all friends and knew each other well,
3 our customers coming into the shop were very much from
4 all denominations. Religion was never an issue. After
5 lunch, I went back to the newsagents and continued
6 serving and talking to customers. I phoned the
7 newsagents that traded up towards the Court House to try
8 and establish what was happening. I spoke to Lucy
9 Hughes. She told me she was closing and leaving the
10 shop because the bomb scare was in her area.

11 One of my customers, Sean McGrath, a local
12 businessman called in for his usual magazine order. He
13 was a great bloke someone I would look often to for
14 advice. Libby Rush from the shop next door came in
15 looking for some change. Libby, Sean and I got talking,
16 then she invited Sean to pop in next door for a coffee
17 and off the two of them went into her shop. My wife
18 Celine was also working with me in the shop. We both
19 continued serving customers for the next five to ten
20 minutes and when we weren't serving we were generally
21 chatting to people at the shop front and mainly about
22 the bomb scare and what was happening.

23 I saw Robert Watson coming down the street towards
24 me. He owned and ran a menswear shop further up the
25 town. He asked me if I'd heard anything. I told him

20

1 I just heard it was a bomb scare up the Court House. He
2 asked me to look after his cash box and keep it safe at
3 the back of the shop, which I, of course, agreed to do.

4 The next thing I knew, the front window just came
5 in around us. Robert and I were both blown off our
6 feet. I looked around for Celine and she had been blown
7 out of her shoes. A young boy was at the drink's
8 fridge, a stone or a piece of shrapnel narrowly missing
9 him. He ran out of the shop so scared. The world stood
10 still for 30 or 40 seconds. Then all the noises filled
11 my ears: the screams and the alarms ringing. I got off
12 the floor and checked on Celine. I was aware that I had
13 as sore shoulder, probably caused by the way I had
14 landed because of the force of the explosion.
15 I realised there was glass in my right arm and it was
16 bleeding. Initially I was running about in a daze.

17 Kevin Bowes from the nearby drapery store came
18 with a first aid kit. He tried to stop the bleeding.
19 I was sitting at a bench at the Northern Bank in a state
20 of shock. When I saw my older son approaching I shouted
21 to him but he didn't hear me. I then went back to the
22 newsagents and all I could see in the street was bodies
23 lying everywhere, a lot of people screaming and
24 ambulances arriving.

25 When I came back onto the street I met Kevin

21

1 I get nightmares thinking about being so close to
2 that bomb site. On the Monday after the bomb, I went to
3 the ENT with my hearing. The nurse said I was suffering
4 with tinnitus as a result explosion. I honestly can't
5 believe it was so warm that day, we had the back door
6 open of the shop and that saved our lives. I think we
7 would have been sucked out -- the police told me I think
8 we would have been sucked out to the street if the back
9 door hadn't been open.

10 The whole of the next week was just a haze, going
11 to funerals, going to wakes. I knew a number of the
12 people who had lost their lives in the bomb. Sean
13 McGrath, God rest him, was the last to die. He died in
14 September.

15 A few days later I went back to the shop, the
16 phones were working again. I took a phone call from
17 someone who sounded like a young girl. She was trying
18 to sell fireworks for Hallowe'en. I felt this was so
19 insensitive. I was so angry with her but, in hindsight,
20 it wasn't her fault. She wasn't to know. She was only
21 doing her job. Dessie McCann, who owned the premises,
22 my landlord phoned me. He started crying, he was upset
23 because he initially had heard that I had been killed in
24 the bomb.

25 About a week after the bomb there was another bomb

23

1 Skelton. He kept saying, "Mena, have you seen Mena?"
2 I will never forget the look on that man's face. I will
3 never forget it. His wife Philomena was found dead in
4 SD Kells shop on the opposite side of the road from my
5 newsagents.

6 When we were told to leave the premises, I moved
7 down the street. All the phone lines were down so
8 no-one could get in touch with me. I was taken out to
9 the hospital. It was like a war zone. There were so
10 many people worse off than me. At the hospital they
11 sorted out my cuts and put a sling on for my shoulder.
12 I then went home but I couldn't settle the whole night.
13 I still didn't know how many people had been killed. It
14 didn't really hit me until the next morning when I heard
15 the news about the number of fatalities. I remember
16 I had been talking to Geraldine and Ann outside my shop.
17 If they had stopped where there were, outside my shop,
18 which is only yards away from the bomb, maybe they might
19 have been safe.

20 Just after the bomb, my late sister, who had been
21 walking across the bridge, she met someone who told her
22 that I had been killed. My children were going to mass
23 the next morning and they were greeted by the late
24 Father Mullan. He said to them he was sorry to hear
25 about their Dad.

22

1 scare. I just headed straight home. I couldn't hang
2 about having witnessed what happened the week before and
3 the vivid and horrific memories it brings back.

4 After things settled down, I realised it was time
5 to give up the newsagents. It wasn't an easy job
6 anymore. Following the bomb, I just couldn't face going
7 back there any longer. I was referred to the Bridge
8 Centre to help treat my psychological injuries that the
9 bomb had had on my health. I was seen by Sean and
10 I continued to have appointments for the following
11 12 months to try and clear all those unwanted images and
12 memories out of my head.

13 I don't come into the town centre now late on
14 Saturday afternoon or early evening anymore. I avoid
15 it. It brings back so many memories from 3.10 time and
16 after that. Omagh itself became so quiet. It wasn't
17 the same Omagh. It wasn't in my eyes, anyway.

18 Moving on a bit, life changed completely. I had
19 always been working and was very rarely out of work but
20 now I found that I was. The days were long, you don't
21 know what to do with yourself. Things were tight.
22 Thankfully my wife was a good support. I went into
23 a dark place in my mind. I certainly wasn't the same
24 guy I was before the bomb but we were lucky, we
25 survived. Even today I keep hearing new things. Just

24

1 very recently I heard of a woman blown through our
2 newsagent's window because of the force of the bomb.
3 I keep thinking if Sean, Libby, Geraldine and Ann
4 had stayed where they were, would they have been safe?
5 In relation to this Inquiry we need answers but will we
6 ever get them? I don't know. I hope so.

7 Thank you for giving me this opportunity to make
8 this statement. Thank you.

9 **MR RAFFERTY:** Thank you, Mr Sharkey. Sir, that completes
10 Mr Sharkey's personal statement.

11 **LORD TURNBULL:** Mr Sharkey, I'm very grateful to you for
12 being prepared to give evidence to the Inquiry and for
13 the care you've taken in preparing your statement. The
14 evidence which you've given has given us a further level
15 of understanding of the events that day and of the
16 enduring effect which they had both on the people and
17 the businesses in Omagh. So I'm grateful to you for
18 being prepared to give evidence. Thank you.

19 **MR SHARKEY:** Thank you.

20 **MR RAFFERTY:** Thank you, sir. Can I ask you to rise and
21 return in 20 minutes, please.

22 (11.11 am)

(A short break)

24 (11.38 am)

25 **LORD TURNBULL:** Mr Greaney.
25

1 covered in dust and she said, 'Don't go near the town,
2 it's bad'. The children were coming, running and
3 crying.

4 I asked to be driven to the hospital as I wanted
5 to make sure the children we had picked for the float
6 were safe as they were due to parade through the town.
7 We were late starting and I think this saved the
8 children. They would have been in the middle of this if
9 we hadn't have been running late.

10 I left my partner and son in the car and walked to
11 the hospital. As I came up the hill to the hospital,
12 an Ulsterbus pulled up with people going into the
13 Accident and Emergency Department. I remember seeing
14 a lady going in carrying her shopping but she was
15 wearing no clothes because they had been blown off her.
16 I remember thinking to myself, 'What is going on?'
17 People were going towards the Accident and Emergency
18 Department in their dozens. I remember seeing a woman
19 by the door of the hospital. She had Father Bradley
20 with her. The only reason I knew she was a woman is
21 that I could see the straps of her bra. I think that
22 Father Bradley was giving her the last rites.

23 People couldn't speak, the place was quiet so
24 I tried to talk to them.

25 A woman had her hand held up with blood pulsating
27

1 **MR GREANEY:** Thank you, sir. We're now going to hear the
2 personal statement of Lisa McGonigle, who is watching
3 the proceedings online.

4 **Personal statement of LISA McGONIGLE read by MR GREANEY**

5 **MR GREANEY:** Her statement is in the following terms:

6 "I was part of a community festival that weekend.

7 On the Saturday we had children from our park take part
8 in a float route. We set off after the children and we
9 were to meet at the Grange Park. As we went through
10 Omagh, the traffic was stopped. We asked some members
11 of the public what happened and they told us there was
12 a bomb scare. It was a very warm day.

13 When I was at the chapel, it sounded like a door
14 had slammed. We passed no remarks and I said to the man
15 next to me, 'That must have been a controlled
16 explosion'.

17 We continued to head to the Grange Park but then
18 the traffic was at a standstill. We got to the Health
19 Centre as we wanted to see the children on the float.
20 I will never forget the old police vans. Two went past
21 and they had legs lying out of the back. Someone
22 shouted at me, 'The kids, the kids', and I knew at this
23 point that something was badly wrong. As we sat there,
24 there was sirens and stuff going on.

25 A friend of mine's wife came towards us. She was
26

1 out of her fingers. The blood was dripping also at the
2 bottom of her body. I know now that she had internal
3 bleeding. Her husband was beside her. His trousers had
4 been blown off him. I went over to out-patients and
5 I saw a girl I knew. She couldn't hear and her leg had
6 been blown off. She was so calm laying on the bed,
7 I couldn't understand it. I learned later that she had
8 been blown through the shoe shop window.

9 When I went back to the main hospital, I was
10 handed an injured baby. I turned around to see patients
11 being carried in on doors, which were being used as
12 makeshift stretchers. I think all of them,
13 unfortunately, were dead. I then said, 'I can't do
14 this', and I handed the baby to someone.

15 At this point I left the hospital. I soon
16 realised I had been there for over two hours. It had
17 felt like five minutes. I threw up as soon as I got
18 into my car. We tried to make our way back home. The
19 town was at a standstill. I had no mobile phone, so my
20 mother thought I was dead. All the phone lines were
21 down. A terrible time for us all and the people of
22 Omagh. I still, to this day, get triggered when I go
23 into hospitals."

24 Sir, that this personal statement of Lisa
25 McGonigle.

28

1 **LORD TURNBULL:** Thank you. I'd like to thank Mrs McGonigle
2 for being prepared to give a statement and, by way of
3 evidence to the Inquiry, her statement has contributed
4 of the understanding which the Inquiry has gathered of
5 the terrible events of that day and of the enduring
6 effect which they've had on the people of Omagh. So I'd
7 like to extend our thanks from the Inquiry.

8 **MR GREANEY:** Sir, thank you very much. That concludes the
9 evidence scheduled for this morning's session and we
10 will aim to resume at 1.30, please.

11 **(11.45 am)**

12 **(Luncheon Adjournment)**

13 **(2.01 pm)**

14 **LORD TURNBULL:** Mr Greaney.

15 **MR GREANEY:** Thank you very much, sir.

16 First this afternoon we're going to hear about the
17 experiences on 15 August and thereafter of Suzanne
18 Travis, who is seated directly opposite me. She's here
19 today with family and friends, and others are watching
20 via the link, and Suzanne would like me to mention in
21 particular that present within the hearing room are her
22 mum, about whom she will speak in the course of her
23 evidence, and also her brother Damian, who is seated to
24 her right, and she will also be talking about Damian in
25 the course of her evidence.

29

1 **A.** No, the mum of the family had actually given me the day
2 off.

3 **Q.** Some of the witnesses, in fact many of the witnesses
4 we've heard from, have described that Saturday as being
5 a very sunny day.

6 **A.** It was beautiful, yes. There was blue sky. I don't
7 remember seeing any clouds that day, which was pretty
8 unusual for us living here. But, yes, it was
9 a beautiful day.

10 **Q.** So it was a lovely sunny day.

11 **A.** Yes.

12 **Q.** To make it even better, you had the day off and, to make
13 it yet better, your mum actually had the day off?

14 **A.** Yes, she did, yes.

15 **Q.** The impression that you get from your witness statement
16 is that you and your mum and a very close relationship?

17 **A.** Yes, we did, yes. We're like best friends.

18 **Q.** So that beautiful summer's day, what did you and your
19 mum decide to do?

20 **A.** We decided to go into town around lunchtime because it
21 was the middle of August, so obviously I was thinking
22 about going back to university in the September. So my
23 mum decided that we would go in to Omagh and purchase my
24 plane ticket because, in those days, there was no online
25 booking.

31

1 Sir, the way in which we will introduce the
2 evidence of Suzanne is I will ask her questions and she
3 will give me answers.

4 **SUZANNE TRAVIS questioned by MR GREANEY**

5 **MR GREANEY:** So I'm going to begin, Suzanne, by asking you
6 to tell us your full name, please.

7 **A.** Suzanne Marie Travis.

8 **Q.** With your agreement, I'm going to be calling you Suzanne
9 during the course of your evidence.

10 Suzanne, in August 1998, how old were you?

11 **A.** 20.

12 **Q.** Were you a student?

13 **A.** Yes, I was at university. I'd just done my first year
14 in Liverpool.

15 **Q.** What were you studying?

16 **A.** Teaching.

17 **Q.** Was Omagh home for you?

18 **A.** Yes.

19 **Q.** So that August were you back home for the summer
20 holidays?

21 **A.** Yes, I was, yes.

22 **Q.** Whilst back home were you just hanging around or did you
23 have a job?

24 **A.** I had a summer job childminding for a family in Omagh.

25 **Q.** On that Saturday, the 15th were you working or not?

30

1 **Q.** So these days we just go onto our computer or even our
2 telephone but those days you actually had to go --

3 **A.** Had to go into the travel agent.

4 **Q.** Did you do that, you and your mum?

5 **A.** We did, yes.

6 **Q.** So you bought your plane ticket and, once you'd done
7 that, did the two of you just go straight home or did
8 you decide to stay for a while?

9 **A.** We decided to have a look around the shops and because
10 it was such a lovely day we were just taking our time,
11 really. We weren't in a rush. So I remember my mum
12 taking me into Dorothy Perkins was a shop I liked at the
13 time and she bought me a black cardigan.

14 **Q.** It seems that that's something that you have a distinct
15 memory of?

16 **A.** Yes, it is, yes, because I really liked the cardigan,
17 so ...

18 **Q.** Now, having been bought that cardigan, did you and your
19 mum decide to stay in Omagh and get something to eat?

20 **A.** Yes, we did, yes. We went to the Shopper's Rest and we
21 had our lunch in there. Well, I say "had", we didn't
22 get to eat much of it but we had purchased lunch and had
23 sat down.

24 **Q.** So I think you had ordered, the food had been brought to
25 where you were seated --

32

1 A. Yes.
2 Q. -- and you had had maybe a couple of bites --
3 A. Yes.
4 Q. -- before something happened?
5 A. Yes, I remember we'd had a couple of bites of food and
6 then I remember that my mum had had apple pie and cream
7 and a cup of tea and I can't remember what I had now
8 but -- and all of a sudden, a few bites in, the police
9 ran in to the Shopper's Rest and told us to get out,
10 that had been a bomb scare.
11 Q. I don't suppose either you or your mum were very pleased
12 to be told to get out, bearing in mind your food had
13 just arrived.
14 A. No. You know, bomb scares were the norm back then, so
15 it was more of an inconvenience really to us, that we'd
16 just sat down to eat lunch and then we were being told
17 to leave. So I remember my mum wasn't particularly
18 happy leaving behind the apple pie and cream.
19 Q. So there was a sense of frustration?
20 A. Yes, inconvenience.
21 Q. Several witnesses have described to us how it was not
22 unusual for there to be a bomb warning --
23 A. No.
24 Q. -- and it sounds as if your response was similar to
25 theirs. There was no panic, there was just, as we've

33

1 you need to go further down, further down, towards the
2 bottom end of the town. So everyone then was gathering
3 pace then and going down towards -- I say gathering
4 pace. You felt hurried at that point but still I didn't
5 feel worried at that point either.
6 Q. Can you remember what the atmosphere was like in Omagh
7 that day?
8 A. There was a really good atmosphere. It was busy, there
9 was lots of people just enjoying their afternoon,
10 really, in the town. I remember bumping into friends,
11 I remember my mum and I chatting to them, my mum bumping
12 into a few people she knew. So, yes, it was a really
13 nice atmosphere that day. It was lovely, yes.
14 Q. Some others have referred to the fact that there was
15 going to be a carnival and that there was a real sense
16 of fun in the air.
17 A. There was, yes. I wasn't aware at the time that there
18 was going to be a carnival. I've since heard that
19 afterwards but that would explain why there was so many
20 people in the town at that time, yes.
21 Q. And you bumped into people that you knew and had a chat
22 with them?
23 A. Yes.
24 Q. So this was a good afternoon, subject only to the
25 inconvenience of being forced to leave your food behind?

35

1 agreed, a sense of frustration that you were having to
2 leave your food behind?
3 A. Yes. There was no panic. I don't remember feeling
4 worried. My mum wasn't either. We just gathered up our
5 belongings and left the Shopper's Rest and were directed
6 then by the police.
7 Q. So notwithstanding that frustration, you did what the
8 police told you to do, left the café and, once outside,
9 did the police direct you where you were to go?
10 A. They directed us towards the middle of the town at the
11 first point. So it looked like when we left the
12 Shopper's Rest that everybody from the Court House down
13 was being directed out of the shops, and so we just
14 followed where everybody else was going.
15 Q. So was the Shopper's Rest towards the top end of town?
16 A. Yes, it's midway down High Street.
17 Q. So when you came out, you saw that people were moving
18 away from the Court House, down towards the middle or
19 bottom end of the town, and you just went with that
20 flow?
21 A. Yes.
22 Q. Where did you end up?
23 A. We ended up towards Wellworths, which is kind of halfway
24 up the town and I remember standing there for a minute
25 or two, and then the police then still directing, saying

34

1 A. Yes, yes.
2 Q. So you'd been told to keep moving on down and where did
3 you end up?
4 A. We ended up down the bottom of Market Street outside
5 a shop, which was called the Salad Bowl and I remember
6 at that point thinking that there was a really big crowd
7 gathering there and there was a lot of waiting around
8 and, again, remember seeing people that I knew standing
9 across the road from me, a few people I'd waved to
10 because, of course, everyone had been evacuated from the
11 bottom half or the top half of the town. So, yes, it
12 was -- but, again, I didn't sense panic at all --
13 Q. No.
14 A. -- at that point.
15 Q. So the sense is that down at the bottom end of town by
16 this stage there's really quite a substantial crowd of
17 people who have all been evacuated from work or shops or
18 wherever?
19 A. Yes.
20 Q. Were you still with your mum once you reached the Salad
21 Bowl?
22 A. Yes, we were together, yes.
23 Q. What did she say to you once you had reached that point?
24 A. She -- we were stood outside the Salad Bowl, just
25 waiting, and then she said to me, "Do you think we

36

1 should walk round to Dunnes Stores", and I said, "Well
2 we'll just hang on for a minute and see what happens".
3 So at that point then she decided to go into the Salad
4 Bowl and she bought some fruit and a few bits and
5 pieces. It was like we were kind of killing time,
6 really, until we got further instructions about where we
7 could move to. So then we came back out, continued
8 standing at the Salad Bowl.
9 **Q.** So you will know, I'm certain, where the car was that
10 contained the bomb?
11 **A.** Yes.
12 **Q.** When you were there outside the Salad Bowl, how far away
13 were you from where that vehicle was?
14 **A.** Well, I know now that we were metres away from it,
15 really, at that point.
16 **Q.** After your mum came back out of the Salad Bowl, within
17 a very short period of time did the bomb explode?
18 **A.** Yes. I remember her -- I remember us waiting and she
19 turned -- she stood to my right and she turned to me and
20 she said, "So do you think we should just walk round --
21 let's just walk round to Dunnes", and I think I was just
22 being a young teenager at the time, you know, and I was
23 just being nosy and enjoying seeing people I knew and
24 I was just like, "Well, we'll just wait, we'll just
25 wait", and that was the last thing she said to me

37

1 **A.** I'll try. When it did go off, it was like dull bang but
2 I think that that's probably because it was so loud that
3 obviously my hearing was affected, but it sounded like
4 a dull bang, and I just remember my entire body being
5 feeling pressure. My face felt like it was being
6 squashed. I remember being forced downwards really and
7 I remember being flung onto my back.
8 **Q.** As you were there on your back on the ground, was there
9 initially just, so it seemed to you, a silence?
10 **A.** There was an eerie silence, yes. So there was no sound
11 at all, so I remember lying on my back and I'm not sure
12 how long for. I'm sure it was only seconds but then
13 I remember the sounds, the screams, the shop alarms
14 going off, just panic and chaos really after that.
15 **Q.** That's exactly the way you describe it in your
16 statement, that after that eerie silence the place just
17 erupted into absolute mayhem with shop alarms, car
18 alarms, screaming and just the sheer sound of panic and
19 chaos?
20 **A.** Yes.
21 **Q.** All of that you remember to this day?
22 **A.** I didn't fall unconscious at all at that point,
23 initially after it had exploded, no.
24 **Q.** As you were there on the ground, were you completely
25 covered in rubble and dust?

39

1 because it exploded then after that.
2 **Q.** Neither of you thought for a second that you were in any
3 danger, did you?
4 **A.** No, not once did I think there was danger. But
5 I remember thinking -- as soon as it did explode,
6 I remember the thought in my head was, "Oh no, this is
7 a bomb and we should have moved". That was the first
8 thought I had.
9 **Q.** You give a description in your witness statement at
10 paragraph 10 of the period immediately after the bomb
11 exploded, and I was just going to read that to you.
12 **A.** Yes.
13 **Q.** What you say:
14 "It is horrifying to recall the mayhem and
15 carnage after the bomb. I never lost consciousness
16 at this stage, and the sights and sounds remain as
17 raw today as they were on the day of the bomb. As
18 soon as the bomb exploded, I knew what it was and
19 remember thinking that I should have listened to my
20 mum and walked over to Dunnes Stores."
21 Does that paragraph capture the thoughts that you
22 continue to have about the moments after the bomb?
23 **A.** Yes, yes, it does.
24 **Q.** Are you able to describe for us the immediate impact
25 that the explosion had upon you and your body?

38

1 **A.** As soon as I realised obviously what had happened,
2 I remember my face was covered in rubble and I was in
3 a panic trying to remove it from myself, and so I'd
4 taken everything off, well I thought I did. I knew that
5 I was covered in debris but I got it off my face and
6 I could feel something lying across my chest. So when
7 I tried to look at what it was I realised it was
8 somebody's arm. So initially then I was panicking then
9 because obviously I knew my mum was to my right at that
10 point, but when I looked it wasn't her, it was somebody
11 who had horrific injuries and I knew they'd sadly died.
12 So I remember moving the hand -- the arm off me
13 and then that's when I started to really lose control
14 then and panic and wanting to know where my mum was at
15 that point. I realised it wasn't my mum because the
16 person had black hair and I knew my mum didn't have
17 black hair, so ...
18 **Q.** So would you mind if I asked you a few further questions
19 about what obviously was a terrible, terrible
20 experience. In your statement you talk about the
21 feeling of having debris on your face in particular and
22 you recall, I think, what a horrible experience that was
23 and you managed to get the debris from your face and
24 body, and did you then realise that your head was
25 bleeding?

40

1 A. Yes, I couldn't -- even though I'd wiped everything from
2 my face, I couldn't understand why I couldn't see
3 properly, so I was frantically trying to still wipe my
4 face and I remember looking at my hands realising that
5 my hands were covered in blood. So I realise now that
6 the top of my head, it was cut, and the blood was
7 pouring into my eyes.
8 Q. And blurring your vision?
9 A. And blurring my vision.
10 Q. As soon as you were able to gather your thoughts, did
11 you think, "Where's my mum"?
12 A. Yes.
13 Q. You were able, I think, to sit up and notice that there
14 were two bodies beside you?
15 A. Yes. I managed to push myself up with my hands and --
16 so I was sat up and just remember the carnage that was
17 around me, saw the poor person who was beside me and
18 there was a person next to them as well, whose injuries
19 I will never forget.
20 Q. For a short time did you fear that one of those people
21 was your mum?
22 A. Yes, yes.
23 Q. But then you realised that neither was your mum --
24 A. No.
25 Q. -- and you realised, as well, that they were both dead?

41

1 A. I realised that she must have been blown into the air
2 when bomb exploded and she'd landed at that particular
3 point in the street and I remember vividly looking at
4 her and feeling relieved that I could see her but she
5 was covered in water because I think a water pipe had
6 burst, so I remember seeing all this water gushing as
7 well.
8 Q. Many witnesses have described the water at the scene.
9 By this stage, as you've managed to sit up and as you've
10 seen your mum, you knew that you had an injury to your
11 head but did you have any awareness of other injuries
12 that you had received?
13 A. No, not at that point. I hadn't felt any pain at that
14 point. I didn't feel I was -- you know, I knew my hands
15 were there because they were covered in blood.
16 I knew -- my eyes were okay, even though I couldn't see
17 with the blood from my head injury but, at that point,
18 no, I didn't realise I had any other injuries.
19 Q. I think that at about that stage you saw a friend of
20 yours nearby?
21 A. Yes.
22 Q. Did you shout out to that person?
23 A. I did, yes. I saw a friend of mine who I'd used to work
24 with and she recognised me and she -- when I'd shouted
25 to her and she came over and it was only at that point

43

1 A. Yes.
2 Q. On realising that neither of those people was your
3 mother, did you start to look around frantically to see
4 where she was?
5 A. Yes, I did. I was just trying to search for her, all
6 the while trying to rub my eyes to try and be able to
7 see if I could see a glimpse of her but it was just --
8 there were just people everywhere. Obviously there were
9 injured lying on the ground, there were people running
10 around who could, trying to help the injured. So I was
11 really struggling to try and see if I could see her.
12 I couldn't -- I eventually was able to catch a glimpse
13 of her and, at this point, when I did see her, she was
14 actually sat up herself but she was in the middle of the
15 road, towards the bottom of the town where Market Street
16 ends.
17 Q. So your mum in the seconds before the explosion had been
18 beside you?
19 A. Yes.
20 Q. Very near to you?
21 A. Yes.
22 Q. Now she wasn't; she was some distance away from you?
23 A. Yes, she was.
24 Q. What was your understanding of what had happened, how
25 your mum had ended up there?

42

1 then that she ran to try and get me some help. I don't
2 know at this point had she seen my injury at that stage
3 and that's why she raced to get help or was she --
4 obviously she would have gone to get help for me anyway.
5 But it was at that point then when she ran away and she
6 said, "I'll be back", that I realised -- I looked down
7 and my two legs were in front of me and I realised that
8 I didn't have my left foot.
9 Q. The very stark and powerful way in which you express
10 that in your witness statement, paragraph 14, is:
11 "I looked down and realised that I had lost
12 my foot. It had been completely blown off."
13 You add that, on seeing that, you had a particular
14 thought and what was that thought?
15 A. That I hadn't felt it.
16 Q. So you hadn't --
17 A. Felt it happen.
18 Q. Your foot was missing and you hadn't felt anything
19 happen to your foot?
20 A. No.
21 Q. Had a man that your friend found then lifted you from
22 where you were to somewhere else?
23 A. Yes. Louise had found someone and he came over, lifted
24 me away from where I was and carried me over to the
25 bridge by the Kozy Corner pub at the time, and he sat me

44

1 down against the railings. So I was sat up against the
2 railings of the bridge. But, at this stage, I could see
3 that I was losing a lot of blood.
4 **Q.** Was Louise there at that stage still?
5 **A.** Yes, she had come back to me and I think she realised
6 then that I was obviously struggling to keep awake at
7 that point, so she just kept -- I just remember Louise
8 saying, "Keep your eyes open, Suzanne, keep your eyes
9 open". But I remember just screaming at her to try and
10 go over and get my mum.
11 **Q.** So even though by now you realised that you had been
12 terribly seriously injured your thoughts were of your
13 mother and wanting to get help for her?
14 **A.** Yes.
15 **Q.** At that stage, did another man come over and lift you
16 from the street and put you in his car?
17 **A.** I remember Louise -- yes, Louise had run back into the
18 crowd and she kept coming back saying, "I can't find
19 your mum", because obviously she knew my mum, she knew
20 what my mum looked like, and she said, "I can't find
21 her, Suzanne". So it was at that point then that a man
22 had driven in front of me in his car and she, I think,
23 asked him that I needed urgent medical attention and
24 could he -- whether he offered, which I'm sure he would
25 have done, or she asked, I'm not sure, but he took us

45

1 **Q.** When you arrived at hospital, did the medical staff take
2 you in and place you on the floor just by the
3 out-patients' department?
4 **A.** Yes, they did. There was a desk. It was like
5 a reception desk and I remember being laid on the floor
6 there and, at that point, I remember I was closing my
7 eyes a lot and they covered me with a blanket but the
8 blanket had covered my legs so then, with all the chaos
9 and mayhem in the hospital, I think it was -- they
10 couldn't see how seriously injured I was. I think they
11 just put a blanket over me and it took Louise to go and
12 get a doctor and say how injured I was for them then to
13 realise that I had a really extensive injury at that
14 point.

15 But, I mean, it was just the nature of the
16 situation when we got out to the hospital and how
17 chaotic it was.

18 **Q.** So Louise went to get a doctor and said to that doctor
19 that you needed urgent attention?

20 **A.** Yes.

21 **Q.** It sounds like she was a very good friend to you that
22 day?

23 **A.** She was a lovely friend to me, yes.

24 **Q.** When the doctor came to you, did he pull back the
25 blanket, see your injury and rush you into a room on

47

1 both then out to the County Hospital. So he lifted me
2 off the pavement and put me into the back of his car.

3 **Q.** Was this a man that you knew?

4 **A.** No.

5 **Q.** So this was a stranger --

6 **A.** Yes.

7 **Q.** -- just performing an act of kindness to you?

8 **A.** Yes, and I remember the journey in his car out to the
9 hospital and Louise was just kept saying to me, "Keep
10 awake, Suzanne, don't fall asleep, keep awake", and
11 I remember sitting on the back seat and thinking to
12 myself this poor man has picked me up, put me in the
13 back of his car and I've just completely covered it and
14 made such a mess of this car. It's ridiculous the
15 thoughts that are going through your mind at such
16 a terrible time but I remember lying there thinking this
17 poor man's car is never going to be same you know.

18 **Q.** Because you bled extensively?

19 **A.** I bled extensively on the back seat, yes.

20 **Q.** As you say, what an extraordinary thought for you to
21 have had in that moment?

22 **A.** Yes.

23 **Q.** You were constantly, I think, crying and asking about
24 your mum, where she was and was she okay?

25 **A.** Yes, yes.

46

1 a stretcher?

2 **A.** Yes.

3 **Q.** Did he say to you that you had lost your foot and you
4 were continuing to lose a lot of blood?

5 **A.** Yes, he did. And I just remember there being nurses in
6 the room and they then started to try and bandage the
7 wound and then I remember the doctor saying that I was
8 going to have to be transferred to Altnagelvin in Derry.

9 **Q.** What you say of the medical staff there at the hospital
10 in Omagh is this, that the medical staff were amazing?

11 **A.** They were, yes. To be faced with that event and to
12 be -- I just remember them running round, trying to help
13 everyone. They were going to one person and they were
14 going to another. My heart went out to them for what
15 they saw and dealt with that day.

16 **Q.** You add:

17 "The hospital was in complete chaos, people
18 crying, screaming in pain, medical staff running around
19 doing all they could to save people."

20 **A.** Yes, that's what it was like.

21 **Q.** Were you transferred to Altnagelvin in Derry by
22 ambulance?

23 **A.** I was, yes. I was put into an ambulance. I remember
24 there being somebody else with me in the ambulance and
25 I remember the sound of the sirens and the speed that we

48

1 were driving at and I remember the person who was beside
 2 me. I remember them doing a lot of work on them.
 3 **Q.** In the ambulance?
 4 **A.** Yes.
 5 **Q.** I think that, very sadly, you understand that the person
 6 you were in the ambulance with did not survive.
 7 **A.** No.
 8 **Q.** Were you transferred to Derry that same day?
 9 **A.** Yes, I was, yes.
 10 **Q.** When you arrived there, were you given a blood
 11 transfusion?
 12 **A.** Yes. Immediately, I was rushed into A&E and I remember
 13 them giving me the blood transfusion as soon as I got
 14 there.
 15 **Q.** I think it's the position that you had to give consent
 16 yourself to the doctors to operate further on your leg
 17 because neither your mum nor your dad were there.
 18 **A.** No.
 19 **Q.** At that hospital, did the doctors have to amputate your
 20 leg further, just below your knee?
 21 **A.** Yes. I remember at that point when I arrived at
 22 Altnagelvin the pain was then severe, quite severe at
 23 that point and I remember the doctors talking to me,
 24 explaining what they were going to do, and then
 25 I remember one doctor coming in to me with a clipboard

49

1 out information about my mum and where she was.
 2 **Q.** I'm now going to ask you in a moment about what you
 3 learned in due course about your mum, but can I first
 4 ask you about your brother Damian. Do you have
 5 a recollection of your brother arriving at the hospital
 6 and being at your bedside?
 7 **A.** Yes, I do. I don't know how long it was in time,
 8 really, but I do remember at some point that same night
 9 my brother arriving at the hospital.
 10 **Q.** You have a really very distinct memory of the arrival of
 11 Damian?
 12 **A.** Yes. I remember him pulling back the curtain and I was
 13 really pleased to see him, so I was trying to smile and
 14 reassuring him and I remember him running out of the
 15 cubicle, and it was only afterwards I found out that
 16 he'd vomited at the sight of me. So that was the reason
 17 why he ran out of the cubicle.
 18 **Q.** In total, did you stay in that hospital for a period of
 19 about six to eight weeks?
 20 **A.** Yes, I did.
 21 **Q.** I said we were going to turn to what you learned about
 22 your mum. Was it the day after the bombing -- so
 23 16 August -- that you were told that your mum had
 24 survived and been taken to hospital?
 25 **A.** Yes. I was operated on that night and by the Sunday

51

1 and a pen, and I was lying in the bed and, obviously,
 2 I didn't know where my mum was at this stage, my dad was
 3 in Omagh. So because I was over 18, I was able to give
 4 consent. So I remember they said, "We're going to have
 5 to amputate, Suzanne, do you understand what we're going
 6 to have to do?"
 7 **Q.** Do you remember them using that word, "amputate"?
 8 **A.** Yes, I do, yes.
 9 **Q.** Was what the doctors were saying to you sinking in?
 10 **A.** Not really. I remember the word "amputation".
 11 I remember them giving me the pen and the clipboard and
 12 then I remember signing it, scribbling on it.
 13 **Q.** You no doubt will have trusted that they had your best
 14 interests at heart?
 15 **A.** Yes, yes.
 16 **Q.** At about that time, did you see a familiar face?
 17 **A.** Yes, I remember when I'd signed the form, I remember
 18 a priest coming into the cubicle and I remember
 19 recognising the priest and he'd been in Omagh for
 20 a time.
 21 **Q.** I see.
 22 **A.** But had then gone to Derry diocese and he came in and it
 23 was nice at that point to see a familiar face because
 24 obviously Louise couldn't travel with me in the
 25 ambulance. So I remember begging him to try and find

50

1 morning when I'd woken up there were family there,
 2 friends and they were then able to tell me that Mum had
 3 also been taken to Altnagelvin but that her injuries
 4 were so severe that she'd actually been airlifted to the
 5 hospital. They said that because of her injuries that
 6 she was in a coma.
 7 **Q.** I think, no doubt very upsettingly, you were unable to
 8 see your mum whilst she was in that coma because, as
 9 a result of your own surgery, you were unable to get out
 10 of bed?
 11 **A.** Yes.
 12 **Q.** But your family gave you updates regularly about how she
 13 was doing.
 14 **A.** They did, yes. So early in that following week,
 15 obviously a lot of my mum's family and travelled to
 16 Omagh and they were giving me regular updates about how
 17 she was doing, and I remember it being every day just
 18 praying so hard that she'd wake up.
 19 **Q.** In your statement at paragraph 21, you talk about that
 20 period when your mum was in the coma and you say that
 21 you felt guilt, and I wanted to ask you why you felt
 22 that.
 23 **A.** I just remember thinking, as I was lying in my hospital
 24 bed, that I should have listened to her.
 25 **Q.** When you say "listened to her", do you mean when she

52

1 suggested that you leave where you were and go to Dunnes
2 Stores?
3 **A.** Yes, and I was annoyed at myself.
4 **Q.** After about a week, I think it was your brother Damian
5 who told you your mum had woken up?
6 **A.** Yes.
7 **Q.** Were you then taken in a wheelchair to see her in the
8 Intensive Care Unit?
9 **A.** Yes, I was. I was wheeled up to see her and I remember
10 her being in ICU and she was trying to reassure me that
11 she was okay and I was trying to reassure her that I was
12 okay, and then, of course, the news was filtering
13 through that a lot of people had passed away, people
14 that we knew, so I felt I was informing her then of
15 those sad stories then at that point.
16 **Q.** You say in your statement:
17 "I'll be forever grateful that we came out alive
18 and were able to survive it all, even though the road
19 has been extremely tough at times."
20 **A.** Yes, I think because I did feel so guilty for a long
21 time, I think if my mum hadn't survived, I would have
22 found my life a lot harder than I have done.
23 **Q.** We agreed earlier that, as you were there on Market
24 Street before the bomb went off, that neither you nor
25 your mum thought for a second you were in any position
53

1 "I hated looking at my 'little leg'.
2 I could not even touch it for a long time. As
3 reality began to set in, I realised this was
4 permanent, I was going to be like this forever, this
5 in turn made me a difficult patient on the ward at
6 that time."
7 **A.** Yes.
8 **Q.** Once you were discharged from Altnagelvin, where did you
9 go?
10 **A.** I was sent to Musgrave Hospital in Belfast because they
11 said then that it was time for me to try and be fitted
12 with a prosthetic limb.
13 **Q.** What happened when you got to -- it was Musgrave
14 Hospital?
15 **A.** I would spend time in Musgrave from Sunday to Friday and
16 I was allowed home then on a Friday for the weekend.
17 I was there for around three to four weeks, I think.
18 I had a room of my own. I felt very lonely there. At
19 the time I didn't really want to be there. I remember
20 there had been another victim who had also lost a limb,
21 a young girl, and she was in Musgrave around the same
22 time but --
23 **Q.** I think -- I'm so sorry, I interrupted you.
24 **A.** That's fine. But I think because of the trauma and
25 probably how we were both feeling about our injuries we
55

1 of danger, so that maybe, if you are able to step back,
2 you can see that the feelings of guilt that you have are
3 ones without a foundation, if I may say that.
4 But I think one of the first things you said to
5 your mum when she came around was how sorry you were
6 that you hadn't listened to her?
7 **A.** Yes, it was. I said I was sorry, we should have gone to
8 Dunnes when you'd said and she was so badly injured in
9 the hospital bed, and she just said, "It's nobody's --
10 it's not your fault, it happened and, you know, don't be
11 blaming yourself". I remember we were crying a lot at
12 that point. I was just so relieved that she'd woken up.
13 **Q.** In those weeks that you were in hospital, did you
14 receive a number of surgeries?
15 **A.** I did on different areas of my body. Obviously, the
16 amputation was the most severe one that was done that
17 night but I remember going down to theatre a few times
18 for different things.
19 **Q.** You tell us that you had little sensation in your right
20 arm and you also had injury to your other leg, which was
21 in a plaster cast and, overall, the injuries that you
22 sustained were, to use your words, horrific?
23 **A.** Yes.
24 **Q.** I'm just going to read a part of your paragraph 22 where
25 you express some of your feelings. You say:
54

1 didn't really connect or talk that much. We just would
2 have passed and said hello, you know, but it was
3 a difficult time for her as well as me.
4 **Q.** You were fitted with a prosthetic limb, which you found
5 an extremely painful experience?
6 **A.** Yes, it was horrendous. I think coupled with the fact
7 that I just didn't want to have a prosthetic limb but
8 I knew that I was going to have to learn to walk again.
9 When I left Derry Hospital, I didn't really have much
10 hope, really. I was quite depressed and angry at the
11 thought of going to Belfast for this next stage of the
12 rehabilitation, so I hated every minute of it. It
13 wasn't easy. It was painful.
14 **Q.** Yes. You told us that at weekends you would be at home
15 and did you find the period at home also very difficult?
16 **A.** I did because, while I was in Musgrave, my mum was still
17 in Altnagelvin in Derry. So at home then it was really
18 challenging because the June before the bomb my parents
19 had separated, so my father was no longer living in our
20 family home, so we were relying on family to visit and
21 take care of my brother, who was only 16 at the time,
22 and obviously then they were there to look after me at
23 weekends.
24 **Q.** So you were reliant on family --
25 **A.** Family and friends, yes.
56

1 Q. You talk of your brother in your statement at
2 paragraph 25, saying:
3 "My brother [who, as you have just told us, was 16
4 at the time] was my carer at night, carrying me up the
5 stairs to bed and helping me to the bathroom. My life
6 had now completely changed forever. I was only 20 and
7 life as I knew it had disappeared."
8 A. Yes. I felt like for so many years I'd been the older
9 sister and he'd been the younger brother and now he was
10 having to do all the caring essentials that I no longer
11 could do. So the roles definitely had reversed at that
12 time.
13 Q. Do you remember a day when you went into Omagh town or
14 at least tried to do so?
15 A. Yes. I remember one of the weekends when I was at home
16 from Musgrave and my aunt and uncle were there at the
17 time, and she was trying to encourage me to see if
18 I wanted to go into the town because I hadn't been near
19 the town at all since that day. I was still in the
20 wheelchair at that point and I remember her taking me
21 in, but we didn't get very far at all and I asked to go
22 home. I just didn't want to be in the town at all.
23 Q. Was that because you just became too upset?
24 A. Yes.
25 Q. For a very long time afterwards, were you unable to go

57

1 my first year I'd been assigned a personal tutor, who
2 was called Tim, and he flew over to see me, probably
3 about three weeks after the bomb. And he said that he
4 was coming in a supportive capacity and that what did
5 I -- not that he wanted me to think about returning at
6 that point to uni but I think he was just saying --
7 trying to reassure me not to worry about my degree or
8 that they would do whatever they could to support me in
9 whatever decision I was going to make.
10 Q. Because, obviously, given the seriousness of your
11 injuries, it would have been entirely understandable if
12 you had decided to miss a substantial period of your
13 studies or maybe even not return to them at all.
14 A. Yes.
15 Q. Could you tell us what you decided to do?
16 A. I don't actually know when I made this decision. I'd
17 gone to university in '97 and I had met a really lovely
18 group of friends and who were also so supportive to me,
19 and still are to this day, and I really didn't want the
20 bomb to take away me not continuing with my degree
21 because I just looked at it as taking away so much
22 already. So I then had many conversations with Tim
23 about how we could make it work, so that I wouldn't miss
24 any time into my second year and following that.
25 Q. Was that achieved, that you didn't miss your second

59

1 anywhere near to the site of the bomb?
2 A. No, I would say it was years later that I was able to go
3 past probably where Wellworths was at that time. So
4 I suppose you could say Wellworths was like the
5 mid-point of the town. I couldn't go past that point.
6 Q. Now, when you were discharged from Musgrave Hospital,
7 did you return to the family home in Omagh?
8 A. I did, yes.
9 Q. That period I think you found very difficult, with many
10 different medical professionals visiting, such as home
11 help and occupational therapists?
12 A. Yes. Life had just completely changed. There was
13 always somebody coming into the house in a caring
14 capacity, explaining how I could manage to get myself to
15 the toilet, how I could try and do all these things
16 independently, to wash myself. So that was a very hard
17 adjustment to make.
18 Q. Now, we learned from you earlier that you had finished
19 your first year at Liverpool University and I next want
20 to ask you about what occurred after the bomb in
21 relation to your university career, and when was the
22 first time that you thought about and/or made a decision
23 about whether to return to university?
24 A. I think it was I realised that the university had been
25 in touch with my family while I was in hospital and in

58

1 year?
2 A. It was, thanks to the university, yes. They provided me
3 with a laptop which Tim again came over with. He came
4 over twice actually to talk me through how they would
5 support me and how I could keep up with lectures and
6 I finally returned to university in Liverpool the
7 following April.
8 Q. I just want to make sure that I've understood something
9 that sounds extraordinary, that obviously now the idea
10 of remote learning is one that we're all familiar with
11 but not back in 1998. But is that essentially what you
12 did for a period, that you were in Northern Ireland
13 learning remotely and keeping up with your studies by
14 using a laptop and receiving notes from lectures?
15 A. Yes, but even then, some of the notes could be emailed
16 but my friends in university would also photocopy me
17 their notes and send them via post from the lectures
18 that I was missing.
19 Q. You say in your statement, generously:
20 "My university were fantastic in the support that
21 they provided. They made it all happen."
22 A. They were unbelievably supportive, yes.
23 Q. Now, you explain in the statement that you did have
24 problems with your prosthetic limb to begin with but
25 that Musgrave Hospital fixed any problems and that,

60

1 although it required a lot of tweaking, you were
 2 eventually able to walk with the prosthetic limb?
 3 **A.** Eventually, I was able to walk but it was nowhere near
 4 as easy as the way it was before, obviously. It was
 5 painful, it rubbed, sometimes the limb would hurt so bad
 6 that I wouldn't be able to wear it. So it wasn't easy
 7 at all.
 8 **Q.** And able to walk again, notwithstanding those problems,
 9 were you able to return to Liverpool, as you mentioned,
 10 in April 1999?
 11 **A.** Yes. In spite of the problems I had back then with the
 12 limb, and since then, really, over the past 26 years
 13 realising that this is just part of being an amputee,
 14 I was able to manage to return the following April.
 15 **Q.** Although, as you explain, you found that difficult
 16 because it involved leaving your mum behind at home when
 17 she was struggling with adjusting to life with her own
 18 injuries?
 19 **A.** Yes, but she encouraged me to go back and she didn't
 20 want me missing out on something that I'd really wanted
 21 to do.
 22 **Q.** Is it the case that in 2001 you were able to graduate
 23 from Liverpool University --
 24 **A.** *(The witness nodded)*
 25 **Q.** -- and that you graduated as normal with the class with
 61

1 I couldn't dress the way I did anymore, I couldn't wear
 2 the shoes I wanted to wear anymore. If we were out and
 3 I was trying to get back into having some sort of
 4 a social life, I remember standing in venues thinking
 5 I can't stand for this long, my friends having to get me
 6 chairs and stools.
 7 And then when we were socialising, it was that
 8 fear of being in a crowded place. I remember sometimes
 9 I would just sneak off and go home because I didn't want
 10 to be out in a crowd. I wasn't as confident as I was
 11 had been. I just wasn't the same person and I just wish
 12 that I could do all the things that I'd done before.
 13 **Q.** Once you graduated, did you initially think that you
 14 would return to Omagh?
 15 **A.** Yes, I'd had it in my head that the three years
 16 remaining on my degree, they were challenging but I was
 17 determined to get to the finish point of the graduation
 18 and I had it in my head that I was going to return home
 19 and then have a break.
 20 **Q.** Before starting to work?
 21 **A.** Yes.
 22 **Q.** I see.
 23 **A.** So I was thinking of then taking maybe some time out
 24 then at that point. But then --
 25 **Q.** Just before you tell us about then, you had done
 63

1 whom you joined university?
 2 **A.** Yes, that's true.
 3 **Q.** Again, you add in your statement that you felt supported
 4 by the university during that period of time.
 5 **A.** I did and the way that they were there for me throughout
 6 the whole time that I had left in the university. They
 7 provided me with weekly counselling sessions, Tim had
 8 given me his phone number if I wanted to ring him any
 9 time day or night, he was constantly there for me. They
 10 were fantastic.
 11 **Q.** We mustn't think, must we, that what you achieved was
 12 without many challenges?
 13 **A.** No, it wasn't. It was hard, like it was going back home
 14 after being in hospital, it was hard going back to
 15 Liverpool because, obviously, I'd left there the summer
 16 before as an able-bodied young 20-year old girl and
 17 I didn't return that way. I now had a disability. Even
 18 though I had a fantastic group of friends around me,
 19 I was still away from home, away from my mum, my
 20 brother. So it was very challenging and I remember
 21 feeling that the reality was setting in then about how
 22 my life had changed.
 23 So as a university student you have a social life,
 24 you're enjoying life at university. I'd returned to
 25 university and I found it really difficult because
 62

1 a teaching degree and was it your plan on graduation
 2 that you would become a teacher?
 3 **A.** Oh, yes, yes.
 4 **Q.** Maybe that was a silly question. If it was, I'm sorry.
 5 **A.** No, it's fine.
 6 **Q.** What did you have it in mind to teach?
 7 **A.** Primary school but, within my degree, I'd also had -- as
 8 part of the criteria you had to do teaching practice so,
 9 at the end of summer of '99, I had done a teaching
 10 practice. I was able to do it in a school in Omagh and
 11 the university facilitated that for me, which was
 12 another way of them supporting me.
 13 **Q.** I think Tim had actually come over to Omagh to watch you
 14 teaching?
 15 **A.** Yes, and that was a family friend of ours who was
 16 a Principal of the school here. She helped me to
 17 facilitate that, and then the last two years of my
 18 degree I did my teaching practice in Liverpool.
 19 **Q.** So it was my fault that I interrupted you just to make
 20 sure that I understood what you were telling us about.
 21 Where you had reached was the point at which,
 22 initially on graduation, you thought about taking some
 23 time away but, in the end, did you decide to do
 24 something different?
 25 **A.** The close circle of friends I had, they were from
 64

1 Fermanagh and they were applying for jobs in Liverpool
2 to get their probation year completed. So I then was
3 watching them applying for jobs and going for interviews
4 and I then thought, well, maybe I should do this, so
5 I did apply for one and I'm still there today.

6 **Q.** So you applied for a job in Liverpool as a teacher?

7 **A.** Yes.

8 **Q.** You managed to secure that job and you're still there to
9 this very day?

10 **A.** Yes.

11 **Q.** At the beginning of your teaching career, did you work
12 the normal full-time hours, five days a week?

13 **A.** I did, yes. I think for about five or six years, if
14 I can remember. I think it was about five or six years
15 I worked five days a week. But I realised, as time was
16 going on, that I was finding it really difficult to be
17 on my feet all day. So then I gradually decreased my
18 days from three days -- down to three days, which I did
19 for a long time and now I'm currently at two days
20 a week.

21 **Q.** We'll have no doubt about this but the reason you have
22 had to reduce your working week is a direct result of
23 the injuries that you sustained in the bombing?

24 **A.** Definitely with age I have -- I felt like in my 20s,
25 I didn't really -- once I graduated I didn't really deal

65

1 disorder and that is also making working life and no
2 doubt life in general more difficult.

3 **A.** It is, yes. There was -- a few years ago there had been
4 a really severe incident that happened to a child in my
5 school. It was widely publicised on the media and when
6 I -- again PTSD can just come out of nowhere so I feel
7 at times I've just pushed on but then when this incident
8 happened, I then -- that involved a child being
9 killed --

10 **Q.** Yes.

11 **A.** -- I felt then that I was scared to go to work because
12 the PTSD and it was the same feelings, the same fear
13 just came flooding back. So I think since that's
14 happened I found it increasingly hard to attend my
15 school for work.

16 **Q.** Thank you very much for explaining that to us. What I'd
17 like to ask you about next, if you're happy, is about
18 your family circumstances. So I am now at your
19 paragraph 37. In the period since August 1998, have you
20 married?

21 **A.** I have, yes.

22 **Q.** Do you have two children?

23 **A.** I do, yes.

24 **Q.** Are they 16 and 11?

25 **A.** Yes. My daughter, Niamh, is 16 and my younger daughter,

67

1 with my amputation or my disability, and so I think
2 I just threw myself into -- once I got the job, I threw
3 myself into that and wanted to do that to the best of my
4 ability but, definitely, over the years, the pain has
5 become really bad in my leg. The phantom pain, the
6 nerve pain and the recurring leg infections have
7 definitely increased, making it difficult to hold down
8 my job.

9 **Q.** In terms of your physical injuries, you continue to have
10 to attend hospital appointments?

11 **A.** Yes, constant hospital appointments, literally once
12 a month, really, I'm attending the hospital or the
13 doctor's for some aspect of my injuries, and I do find
14 definitely as I'm getting older that life is getting
15 harder.

16 **Q.** At the time you made your witness statement, you explain
17 that, in a few week's time, you were due to have
18 an operation to remove shrapnel from your leg?

19 **A.** Yes. The consultant who I have in England realised that
20 the leg infections were becoming more frequent due to
21 there being shrapnel pieces in my little leg. So I'm
22 having those removed at the end of this month.

23 **Q.** Obviously your physical injuries are making work much
24 more difficult but I think we should also understand
25 that you have suffered from post-traumatic stress

66

1 Aoife, is 11.

2 **Q.** Have you tried your best during their lives to shelter
3 your children from the trauma that you and your mum
4 experienced?

5 **A.** Yes, I think when my children were a lot younger, as
6 children do, when they're little they don't notice
7 things that are wrong with Mum or Nanny. But
8 I definitely feel, as they have grown up, they noticed
9 obviously my injuries and what I was having to do. You
10 know, they saw my prosthetic leg, they asked -- started
11 to ask questions they realised and could see their mum's
12 injuries so they would ask questions but, obviously, we
13 wouldn't -- we didn't go into a lot of detail because
14 it's horrific and it's not nice to talk to small
15 children about it, so we definitely sheltered them.

16 So my line was, if they asked, "Mummy, what's
17 wrong with your leg", I would just say "The bad men did
18 it, the naughty men did this to Mummy's leg". So for
19 years, when they were little, that's as much as I ever
20 told them, really. It's only been in recent times that
21 I've told them a little bit more.

22 **Q.** I think recently you and your family came back to home
23 in Omagh for a three-week holiday and you explained to
24 your children some of what life was like growing up in
25 Northern Ireland back in the times that you've been

68

1 telling us about?
2 A. Yes, and I would tell them -- obviously they're used to
3 coming to Omagh. We'd visited the memorial garden and
4 they're at an age now where they can understand or have
5 some understanding of what had happened to myself and my
6 mum. So I wanted to answer those questions for them,
7 really, and they showed an interest, so I was able to
8 talk to them about what happened, where we were that
9 day. So for them to just have a bit of a better
10 understanding, really.

11 Q. I'm going to ask you about two final issues relating to
12 your family life and then I'm going to ask you to read
13 for us the final paragraph of your statement and the two
14 matters are these. First of all, have your injuries had
15 an impact on some of the things that otherwise you would
16 have been able to do with your children?

17 A. Yes, I would definitely say that, like I said before,
18 when I was younger and even when my children were small,
19 you just go on with your day-to-day life. It's only
20 when you can't do something that you realise, "I'm
21 disabled, I can't do that". So definitely things with
22 my children, which I would have been able to do that
23 I can't, that's very difficult.

24 I remember actually, in particular, being away
25 with my brother and his family and our family, and the
69

1 living in London at the time and, at that time, the IRA
2 were quite -- the IRA were doing things in London,
3 obviously, at that time. So my father, in particular,
4 and my mother were being ousted, really, and picked
5 upon. So I think that was also part of the reason to
6 leave London and move back to Omagh.

7 Q. Your father, I think, is dead?

8 A. Yes.

9 Q. Did he say something to your mother about the move back
10 to Omagh, shortly before his death?

11 A. Yes. We had spoken with my father a few months before
12 he passed away and he told my mother and I that he
13 wished that he'd never relocated back to Northern
14 Ireland, it was the worst decision that he'd ever made
15 because he really struggled to, himself, come to terms
16 with the devastation that the bomb had brought to
17 myself, my mum and my brother.

18 Q. So, finally, Suzanne, I am going to ask you, as I said
19 I would, to read for us the final paragraph,
20 paragraph 39, of your statement so that we hear those
21 important words in your own voice.

22 A. "26 years have passed since that terrible day and I have
23 now lived much longer with my injuries than without
24 them. Not a day goes by where I am not in pain or
25 uncomfortable. Every morning I face the grim reality of
71

1 children, my nieces and nephew and my children, wanted
2 to go swimming and I haven't swam since I was injured.
3 So that was hard because they were all going into the
4 pool and I was sat in the viewing gallery watching them.
5 And I know it's an important thing for children to do,
6 swim, but it's those points where you think -- and
7 I know lots of people who are amputees go swimming but
8 I just don't have confidence to do that, so it's those
9 things, going on long walks with your family in holiday
10 times, I struggle to do because I experience pain most
11 days, and it's extremely uncomfortable after walking for
12 a few minutes. So then you have to sit down.

13 So it's been very hard to come to terms with. In
14 fact, I don't really think that I've really ever come to
15 terms with it or accepted it. I've just had to learn to
16 live with it to get about my daily life the best way
17 I can.

18 Q. So I said there were two things and this is the second.
19 Your father, I think, was originally from Omagh but the
20 early part of your life was spent living in London?

21 A. Yes, it was, yes.

22 Q. But you moved back to Omagh when you were aged 11.

23 A. Yes, we moved back to Omagh in 1989 and I think my
24 parents did this really to give us a better life really
25 and, ironically, my parents were -- obviously we were
70

1 having to put on a prosthetic limb just to be able to
2 get out of bed and begin my day. Life has become more
3 difficult as time has passed and attending hospital
4 appointments and counselling is still ongoing. However,
5 I am very fortunate to have a loving and supportive
6 husband and our girls make our family complete. I am
7 also extremely grateful to all our family and friends
8 who have been a constant support to us since the bomb.

9 Over the years, it has also been hard seeing how
10 the bomb has affected my mother. Her injuries have
11 majorly impacted her life too but I am very proud of how
12 strong and resilient she is in coping with all that she
13 dealt with over the past 26 years.

14 For my brother also. He was only 16 at the time
15 of the bomb and had to deal with things no teenager
16 should. He has had to watch my mother and I struggling
17 and in pain. He has always been there for us.

18 Little did I know that a lovely sunny day in Omagh
19 all those years ago would turn into the worst day of our
20 lives and would result in my mother and I living with
21 life-long disabilities. The men who carried out this
22 atrocity drove away that day and left behind carnage,
23 devastation and suffering. They didn't care. They
24 ruined many, many lives, mine included, and for what?
25 I will never forgive them for the cowardly, wicked act
72

1 that took so much away from my family and I."

2 **MR GREANEY:** Suzanne, thank you very much indeed.

3 **LORD TURNBULL:** Mrs Travis, you very kindly have given

4 evidence to the Inquiry about the events which befell

5 you and your mother when you were only 20 years old.

6 The account which you've been able to give us provides

7 meaning to what would otherwise be unimaginable violence

8 deliberately inflicted on shoppers on a busy summer's

9 day in the centre of your own town.

10 Without having heard from you, one simply could

11 not have begun to understand the reality of the impact

12 of such an event, and of the injuries that you received,

13 on a 20-year old young woman. The understanding which

14 you've given to us is of consequences for you of a truly

15 appalling nature and, furthermore, it's also clear that

16 you've continued to suffer from those consequences in

17 many different ways throughout all of the years which

18 have passed.

19 Given the events which you have described to the

20 Inquiry, those of us who have listened to your evidence

21 will, I am sure, all have found it astonishing that you

22 were able to return to your university studies without

23 falling behind and even to graduate with your original

24 year group students in 2001. That remarkable

25 achievement and the success you went on to make of your

73

1 staying that weekend with my parents, as my husband was

2 going away to Donegal for the weekend. I arrived in

3 Omagh at approximately 2.00 pm.

4 As it was my mother's birthday, my sisters and

5 I were discussing whether to go down the town to Clarks

6 shoe shop to get my daughter's new shoes first or have

7 my mother's birthday tea party first, as all the

8 children were excited to get sweets and cake. We

9 thought we would wait until 3.15 pm before we would go

10 down in the town and we would have the party first.

11 Traffic was normal Saturday traffic. Our family

12 home was in Omagh. We were unaware of any traffic

13 disruptions in the town. As it was decided, my mum's

14 tea party was held first. So we set about getting out

15 sweets, et cetera. I decided to go out to our enclosed

16 backyard to have a cigarette at the time and was soon

17 joined by a few other family members just looking for

18 a chat. It was while I was sitting out in the yard

19 I heard a massive bang. My young nephew, who happened

20 to be out in the yard, asked me, "Was that a bomb?" He

21 appeared quite shocked as he was visiting from England

22 and had never heard any explosion ever in all his visits

23 to his nanny's.

24 My family and I ran to the front door of the house

25 and could see over the rooftop in the direction of

75

1 career must be a mark of a real determination on your

2 part not to allow those who perpetrated this atrocity to

3 define your life.

4 So I'm most grateful to you for the strength and

5 the generosity which you have shown in giving evidence

6 to the Inquiry. Thank you very much.

7 **A.** Thank you.

8 **MR GREANEY:** Sir, may we have a break for ten minutes,

9 please.

10 **(3.24 pm)**

11 **(A short break)**

12 **(3.42 pm)**

13 **LORD TURNBULL:** Mr Greaney.

14 **MR GREANEY:** Sir, thank you. We're now going to hear the

15 personal statement of Margaret Murphy, who is in the

16 usual position, and we will receive that evidence by

17 Margaret reading her own witness statement for us.

18 So, Margaret, once you're ready, would you please

19 do that?

20 **Personal statement of MARGARET MURPHY (read)**

21 **MRS MURPHY:** Thank you.

22 The reason I was in Omagh that day I was visiting

23 my parents and family who lived in Omagh. I was married

24 and living permanently in Derry for five years. I,

25 along with my two young children, aged 3 and 2, were

74

1 Wellworths/Safeways a cloud of smoke raised in the air.

2 Within a few minutes a lady was crossing at the bottom

3 of the hill that led to our row of houses. She shouted

4 up to me, "Margaret, you're a nurse there's people lying

5 everywhere down the town". I thought how could she know

6 that when this bang had just happened. I honestly

7 thought that does not sound right. To say the least,

8 I was sceptical of her interpretation of what had

9 happened.

10 I do not remember anyone coming out to their front

11 door at that time. We came inside and closed the front

12 door. At that moment, our phone in the hallway started

13 to ring, someone was ringing to see if we were all

14 right. There was no broken windows, slates from roofs

15 or damage to buildings beside me. There was nothing out

16 of the ordinary in that space of time, only this cloud

17 of smoke above the buildings. No-one sustained any

18 injuries, cuts or bruises because we were frankly

19 a distance away from the impact of the blast.

20 A friend of mine was going down the town with her

21 children but came to our house after she heard the

22 blast. I do not know how she got there, only that she

23 was there. I was unaware if she had a car or where it

24 was. She was quite shocked. Thankfully, none of her

25 immediate family was hurt in the bomb but, at that time,

76

1 we were all totally unaware of other families being
2 injured. The telephone landline went dead and only
3 mobile phones could work. We had not got a mobile phone
4 at this time. My sister was home from England with her
5 three children and her husband had to wait later in the
6 day to find out if they were all right.

7 Prior to the telephone landlines going dead,
8 someone rang our house again. I never knew who it was,
9 only my mother saying, "Margaret, do you think you need
10 to go casualty to help?" I asked my mum who would look
11 after my children. She said she would do it if I wanted
12 to help. We were totally unaware of what had happened
13 and there was no-one in the area who really had a clear
14 understanding of what had happened.

15 I jumped into my car and took my blood pressure
16 monitor and stethoscope and headed towards Accident and
17 Emergency Department in the Tyrone County Hospital.
18 I was a community nurse and had this equipment in my
19 car. I was stopped by a very disorientated police
20 officer, coming out into the Dublin Road at a junction
21 from the Academy School, which is still there today.
22 I felt very sorry for the policeman as he tried to
23 re-route traffic from the bottom of the town. I noticed
24 he had no hat on and his tie was loose. I remember
25 saying to him, "Look, I know the back road to the

77

1 I remember one being quite distressed as she needed to
2 use the bathroom. I took her by the hand to the
3 bathroom. She pleaded with me not to leave her and
4 I stood outside waiting on her, shouting in to reassure
5 her I was still there. When she had finished using the
6 bathroom I took her by the hand brought her back to her
7 three friends.

8 I and other nurses continued to work on and, at
9 one point, someone would come out of the main Accident
10 and Emergency Department to say, "We have a space".
11 "Who is next", they would shout, and we had to triage
12 quickly. I remember a GP arrived and was working with
13 a young man with a head injury and bandaging his head
14 with a crepe bandage. He was eventually moved into the
15 Accident and Emergency Department. I do not remember
16 many doctors at that time in this area but there were at
17 least three.

18 As the place began to fill up, a lovely lady who
19 must have worked for the hospital came in and said, "Do
20 you think these people would like a wee cup of tea?" As
21 we had been very busy, all I could do along with the
22 other staff nurse was to laugh. I just think it was so
23 out of the blue, given the field hospital we were
24 working in. The last thing on our mind was a wee cup of
25 tea but, bless her, I remember her empathy very well.

79

1 hospital, past the meatpacking factory", and I would
2 reach the hospital that way. He wished we luck as I did
3 him that day and I arrived at the hospital at
4 approximately 3.35 pm.

5 I walked in a side door at the Accident and
6 Emergency Department, only to be standing in a room with
7 a family crying over their mother who had died. I moved
8 quickly out of that room and into the main department,
9 explained I was a nurse with AED experience and where
10 did they want me.

11 I was instructed by some staff nurse to go over to
12 the clinic opposite the Accident and Emergency
13 Department, as patients will be going there. I hurried
14 quickly to this area and met a staff nurse who was
15 running through some IV infusions, should we need them.
16 I helped her do the same and prepared any dressings,
17 observations equipment and basically anything I thought
18 we would need. We had no-one in this area at this time
19 of my arrival.

20 Very soon that quickly changed and we were
21 treating a number of casualties. Some had head
22 injuries, cuts, bruises and people really in
23 a traumatised state. I remember putting three Spanish
24 children on three mattresses on the floor beside each
25 other, as I knew they could support one another.

78

1 One thing she pointed out, no-one was taking names
2 initially as we were treating the injuries and this lady
3 had started this process. While we were asking the
4 patients their names, we were not collating it. The
5 lady managed to collate that.

6 My area of work soon cleared by 7.30 to 8.00 pm.
7 My last job was to take the hand of a mother who came
8 into our area looking frantically for her daughter.
9 I remember her gripping my hand as I took her out of the
10 area we were in to go to the other areas that casualties
11 were being brought to. I was totally unaware of other
12 people working with patients in other areas. The
13 magnitude of what had happened only really hit me at
14 this time. I brought this mother to the nurse's home as
15 patients were being seen there, and it was here that her
16 daughter's name was on the list of people who had passed
17 through this area. I handed the mother to the nursing
18 and medical staff and they would now take care of her.
19 Her daughter suffered serious facial injuries and was
20 either on her way to the Royal or still at the Tyrone
21 County Hospital.

22 As I left that night a lot of were outside the
23 Accident and Emergency door. I met a community nurse
24 who had also come out to help. We both gave each other
25 a big bug and cried together at the scale and magnitude

80

1 of what had happened. Her mother had been injured and
2 admitted to a ward in the Tyrone County Hospital. She
3 was totally unaware of it at the time. Her mother
4 survived.

5 I have never ever made a statement and, frankly,
6 this is the first time I've come forward. I would like
7 to offer whatever help I can to pursue your Inquiry.

8 This ends my statement.

9 **MR GREANEY:** Thank you very much.

10 **LORD TURNBULL:** Mrs Murphy, I'm very grateful to you for
11 preparing this statement and for coming to give evidence
12 to the Inquiry. Your statement and evidence has brought
13 a further dimension to the understanding of the Inquiry
14 because, along with other health professionals, you
15 provided care to many of the injured and those who
16 attended at the hospital looking for their loved ones.
17 Whilst tending to injuries might be thought of as part
18 and parcel of the job of health professionals, such as
19 doctors and nurses, it seems to me that the scale in
20 terms of the numbers of people who attended at the
21 hospital and the extent and the severity of the injuries
22 which they presented with must have been overwhelming.

23 It's therefore important for the Inquiry to
24 acknowledge the enormous contribution which medical
25 staff made that day and it's also important not to lose

81

1 scare, so we closed the doors and served the last few
2 remaining customers. There was no sense of urgency or
3 fear.

4 One of my colleagues went to the back office and
5 called head office to let them know we had to leave the
6 store. They instructed us to call two other branches in
7 Northern Ireland and to take two 10p coins with us so we
8 could call the two branches from a payphone if, for some
9 reason, we couldn't return to the store. We locked the
10 store and the three of us headed in the same direction
11 as the crowd, towards the bottom of the town.

12 At no stage did I notice any police presence. We
13 kept walking until we came across a large crowd gathered
14 at the bottom of the town, all standing around waiting
15 to get back to work or to go about finishing off their
16 shopping in the town. We stood outside one of the
17 shops, not realising at this stage we were directly
18 beside the car carrying the bomb.

19 One of my colleagues left us after a few minutes
20 to speak to some people she knew. As I was only wearing
21 a skirt and blouse, my uniform, I said to the other
22 colleague, who had remained, 'The sun is shining on the
23 other side of the street, so should we cross over, it
24 will be warmer'. We crossed over and stood outside
25 McElroy's shoe shop. We stood beside some other girls

83

1 sight of the impact which the demands of such traumatic
2 events must have had on the medical staff as well. So
3 I'm very grateful to you for bringing this aspect to the
4 attention of the Inquiry. Thank you.

5 **MR GREANEY:** Sir, thank you could we break on this occasion
6 for five minutes, please.

7 **(3.53 pm)**

8 **(A short break)**

9 **(3.59 pm)**

10 **LORD TURNBULL:** Mr Greaney.

11 **MR GREANEY:** Sir, finally this week we're going to hear the
12 personal statement of Nichola Donnelly, who is seated
13 directly across from me, and she has with her her
14 husband, Adrian, and her daughter, Shania.

15 **Personal statement of NICHOLA DONNELLY read by MR GREANEY**

16 **MR GREANEY:** "On Saturday, 15 August 1998, I was employed as
17 an assistant manager in Birthdays, a card store that was
18 located on the main street of the town centre. There
19 were three of us working in the store that day, myself
20 and two colleagues. It was a normal busy Saturday in
21 the town. I went for my lunch break from 1.30 to
22 2.30 pm. When I returned to the shop floor, the
23 customers were browsing and shopping as normal. At some
24 stage a customer told us the police were moving people
25 down towards the bottom of the town as there was a bomb

82

1 that I knew. We were all talking and laughing and just
2 waiting to get back to work.

3 Two ladies came along and stopped to talk. One of
4 them said, 'Girls, this is no hoax, this is the real
5 thing'. She explained that she had spoken to a police
6 officer. Then the two ladies proceeded to walk towards
7 the bottom and I can still see the lady smiling as she
8 turned to walk away.

9 The next thing I remember is an almighty force and
10 it felt like I was being pulled and sucked and
11 I remember all these yellow and orange colours. I don't
12 know how long after that I remember my mouth and nose
13 were blocked, full of dust and debris. I was coughing
14 and blowing trying to clear my airways to breathe. My
15 whole body felt heavy and weighed down. I couldn't
16 move. I started lifting all the debris off me to free
17 myself. My instinct was to get up and get away, to
18 move. I managed to stand up but I was frozen in the one
19 spot. I couldn't move. The ground was covered in
20 debris and people lying everywhere. I was struggling,
21 trying to move and not walk over people. I could see
22 out to the street. I didn't know at the time but I had
23 been blown through the shop window. I was reaching out
24 and crying for help.

25 Then I saw a man I knew. He called out my name

84

1 and came running towards me. He tried to lift me up but
2 I had a large gash on my left thigh and his hand was
3 hurting it. I screamed and he had to let me down. He
4 called another man over to help him. They stood either
5 side of me and I put my arms around both their necks.
6 They took one leg each and started carrying me out of
7 the shop. I remember looking down, my blouse was torn
8 and ripped, my skirt was ripped to shreds and my
9 underwear was exposed. I'll never forget all the people
10 on the ground and the smell and the screams.

11 They carried me around the corner where the public
12 toilets were and sat me on the pavement. They said they
13 were going back to help others and they would be back.
14 I remember my feet were burning and I thought my sandals
15 were hurting my feet. I took off my sandals. My left
16 foot was cut open the full length on the inside, my
17 right foot had a large gash on the inside also, the
18 blood was pouring from them and puddling on the
19 pavement. I kept trying to line my sandals up with the
20 lines on the pavement. I was crying and in total shock.

21 One of my colleagues came running with a man
22 carrying a girl who was badly injured. She said 'I'm
23 leaving her with you, I have to go back and look for her
24 mummy'. I was just sitting crying and calling out. My
25 sister and her friend were coming from the direction of

85

1 three gashes on my left leg. A doctor came and briefly
2 assessed everyone to see where to put people.

3 My friend, who is a nurse, arrived in casualty as
4 they had called for all medical staff to come. She came
5 straight to me and started ripping of my tights as they
6 were sticking to the wounds on my legs. My
7 sister-in-law came and put her cardigan on me. Then
8 I was called to move to a ward but I couldn't move.
9 I was frozen in the seat. It was complete agony to try
10 and move. They had to call two men to lift me in the
11 chair. The blood from my legs had pooled in the back of
12 the chair, behind me when they lifted, the chair the
13 blood ran all over the man's shirt. I was taken to
14 a ward. My husband, his mother and my two brothers came
15 to the ward.

16 I was assessed and it was decided I was to go to
17 a hospital in Enniskillen. My husband couldn't come
18 with me in the ambulance. I had to travel with a little
19 boy. He was in shock. He wouldn't speak and the
20 paramedic asked me to try to talk to him. He must have
21 been so scared. I asked the paramedic for pain relief.
22 She explained she couldn't give me any as she had to
23 hand me over in the same condition I left Omagh. To
24 distract me, she said that she didn't know the way to
25 Enniskillen and could I help her, and she asked me to

87

1 the bus depot and her friend said, 'I think that's your
2 sister, she's calling Adrian's name', Adrian being my
3 husband.

4 I remember one of the girls to whom I had been
5 speaking running towards me screaming. She was crying
6 and shouting about all the blood and wanted to get me to
7 a hospital. There was a car stopped and the girl asked
8 the driver to take me to the hospital. I remember the
9 lady being upset, not wanting to leave the girl who was
10 injured. I'm not sure who got into the car but the girl
11 to whom I had been speaking was with me.

12 We got to Tyrone County and everyone got out of
13 the car. The girl had to use a payphone to ring my mum
14 and tell her to get Adrian. A nurse, or maybe
15 an auxiliary, came over to me in the back of the car.
16 She tried to help me out to get me into the waiting room
17 of the casualty department. Tears were rolling down her
18 cheeks. I got a seat in casualty and people started to
19 arrive. People were coming in wrapped in sheets, some
20 were laid on the ground. The room was getting full and
21 they started using the corridors. A doctor was walking
22 around the room holding a baby that had a cut on her
23 head trying to see if anyone recognised it. My mum and
24 dad came and, as I sat in the chair, the blood was
25 pooling around my feet. I had a gash on my right wrist,

86

1 keep talking to the boy.

2 When I got to Enniskillen I was on a stretcher for
3 a long time, then taken to a ward to await surgery.
4 I had surgery that night to remove shrapnel, glass and
5 stones from my face. They also closed my wounds on both
6 feet, my right wrist and the wound on my left shin and
7 buttock. The two large gashes on my left leg were left
8 open for a further week to clean all the debris from
9 them. I spent the first week in intensive care, then
10 was moved to a surgical ward for another week after the
11 two wounds were closed.

12 I had to learn to walk again and was sent home
13 with a wheelchair and crutches. I had to move to my
14 parents' home for three months to get help in my
15 recovery. I continued my recovery with endless physio
16 appointments and great help from my GP and the continued
17 support I receive from WAVE, my husband, family and
18 friends.

19 Adrian and I were only married for six weeks when
20 this happened and were just starting out on our married
21 life. These injuries are life-changing for me. As the
22 years have gone on, I think it has gotten worse. I am
23 in pain daily, my mobility has decreased awfully and my
24 mental health has suffered because of this incident.
25 Every day of my life I am reminded of this because of my

88

1 scars, my mobility, my pain and my mental health.
 2 Finally, I would like to say how grateful I am to
 3 the Inquiry team for their professionalism and
 4 sensitivity."
 5 Sir, that concludes Nichola's statement.
 6 **LORD TURNBULL:** I am very grateful to Mrs Donnelly for the
 7 strength she has shown in being prepared to give
 8 a statement to the Inquiry. Mrs Donnelly was another of
 9 those working in the centre of Omagh who was badly
 10 injured in the explosion. The account which
 11 Mrs Donnelly has given in her statement provides the
 12 Inquiry with a further layer of understanding of how
 13 awful it was for those caught up in the explosion, not
 14 just on account of the injuries which they received but
 15 on account of all of the terrible sights and sounds to
 16 which they were subjected.
 17 Mrs Donnelly's statement also gives us an insight
 18 into what it was like for those who needed treatment at
 19 the hospital and it adds to our understanding of what
 20 a challenging time the medical staff had to face.
 21 As has been the case with so many other survivors,
 22 the injuries which Mrs Donnelly received have had
 23 a life-long effect on her and not just in terms of
 24 physical pain. In the evidence which Mrs Donnelly and
 25 other witnesses have given, the Inquiry is becoming

89

1 acutely aware of the devastating and enduring mental
 2 health issues which have burdened those who survived the
 3 bombing and this is something that we will wish to give
 4 much thought to in the weeks and months ahead.
 5 Thank you very much, Mrs Donnelly.
 6 **MRS DONNELLY:** Thank you, sir.
 7 **MR GREANEY:** Sir, as I indicated, that concludes the
 8 evidence for this week and, for reasons connected with
 9 the technical equipment that must be removed and then
 10 reinstalled, we will not be able to sit until 11.00 am
 11 on Monday morning.
 12 **LORD TURNBULL:** Thank you.
