As discussed see below, Jacqueline confirms all MHS messages received into PVI were shredded after a week.

Michelle

There used to be loads of papers stored in our old office across the way but I don't know what was done with them.
There was sheets from the 90's with our initials for all the radio checks we did.

Probably stored in **I&S** some were if they haven't been destroyed.

Whats up now ???

Hi All,

As you've all been in PVI for some time, can you advise if you still hold files of MHS messages received into PVI as far back as 1998? If so where would these be stored?

Many thanks for your assistance.

Regards
Michelle
