

RESTRICTED

EOD ACTION

INITIAL ASSESSMENT

1. Carefully assess and check the reliability of the information, suspect a lure and decide whether the SF must react immediately or whether they can delay. Remember that once you decide to react, the initiative passes into your hands.
2. Do not risk life to save property or time.

IMMEDIATE RESPONSE (Normally an IED incident in an urban area. eg An Explosion, discovery of an IED or an accredited warning).

3. **EOD Drill:**

- a. CONFIRM.
- b. CLEAR.
- c. CORDON.
- d. CONTROL.

4. **Action Check List for ICP Comd:**

- a. Confirm device exists. (Unnecessary if confirmed by RUC).
DO NOT TOUCH OR MOVE IT.
Hold and separate witnesses.
- b. Start clearance. Inhabitants to move to _____
- c. Task ATO to RV (eg RUC Station).
- d. Select, Clear and establish ICP. When ICP firm move ATO forward. Cordon and evacuation should proceed but need not be complete at this stage.
- e. Report location of device:
 - (1) Any time warning.
 - (2) Description of bomber.
 - (3) VRN and description of car, if used.
 - (4) Location of ICP (RV for back up).
- f. Clearance to continue – using back up. OS
- g. Cordon control appointed.
- h. Inform Ops as streets are cleared. (Use plan).
- i. Confirm ICP and send route for ATO. Consider tasking RESA and REST.

RESTRICTED
EOD ACTION

REMEMBER

Delayed response EOD clearance can take days but...

**TIME AND PROPERTY MEAN NOTHING
LIVES MEAN EVERYTHING**

INITIAL ASSESSMENT

1. Carefully assess and check the reliability of the information, suspect a “come-on” situation and decide whether the SF must react immediately or whether they can delay. Remember that once you decide to react, the initiative passes into your hands. – **(Consider Op CLEAN)**.
2. Do not risk life to save property or time.

IMMEDIATE RESPONSE (Normally an IED incident in an urban area eg An Explosion, discovery of an IED or an accredited warning.)

3. **Urban EOD Drill:**
 - a. CONFIRM.
 - b. CLEAR.
 - c. CORDON.
 - d. CONTROL.
