N1727 Colm MURPHY

A1151 is the earliest action found on N1727 MURPHY raised on 23/08/1998 from M623 to 'Research N1727 MURPHY with SB and all agencies'. It was resulted on 10/09/1998 with 'Presently a dissident member of IRA aligned to the real IRA. At this time we do not have intelligence to suggest he was involved in this bomb'.

M623 is the lowest numbered message on N1727 but as no date or time has been entered on the message we can only presume it is the first document detailing Colm MURPHY. It must have been dated on or before 23/08/1998 when A1151 was raised. This message gives information re 4 suspects and their involvement in the Omagh bomb. It details who was the driver and bomb maker. However the cross reference gives no such detail and is just another bland entry with no information.
