

Witness name: John Milton

Statement No: WITN0398001

Dated: 13 February 2026

THE NOTTINGHAM INQUIRY

FIRST WITNESS STATEMENT OF DR JOHN MILTON

I, John Milton, will say as follows:

1. This statement responds to the Rule 9 request dated 16 January 2026. It provides details of my career and role in the Nottinghamshire Healthcare NHS Foundation Trust (“**NHFT**”), and my involvement with Valdo Calocane (“**VC**”).
2. This witness statement was drafted on my behalf by the external solicitors acting for the Trust in respect of the Inquiry, with my oversight and input, following discussions in writing by email and by video conference. I have also consulted with the Medical Protection Society during the drafting of my statement.

Qualifications, memberships, professional appointments

3. I graduated from the University of Birmingham Medical School with a BSc (Intercalated) in Pharmacology (completed in 1986) and a MBChB (completed in 1989).
4. In 1993, I became a member of the Royal College of Psychiatrists (membership number 9991).

5. In 1995, I graduated with a Masters in Medical Science (MMedSc) from the University of Leeds.
6. I have a Certificate of Specialist Training (CCST) in General Psychiatry dated 30 March 1998, and also a CCST in Forensic Psychiatry dated 4 July 2002.
7. In 2004, I completed a Higher Degree in Forensic Psychiatry at the University of Nottingham.
8. As to professional appointments, and since November 2018, I have been a Ministry of Justice Mental Health Tribunal Medical Member. Since February 2024, I have also been a Second Opinion Approved Doctor with the Care Quality Commission.

Career to date

9. From 2002-2004, I worked as a Senior Lecturer at the University of Leicester and the University of Nottingham. I also worked as a Consultant Forensic Psychiatrist at Arnold Lodge (Medium Secure) Psychiatric Unit in Leicester.
10. From 2004-2019, I worked for NHFT as a Consultant Psychiatrist at Rampton (High Secure) Hospital in Nottinghamshire. Whilst at Rampton, I worked in both the personality disorder and mental illness services.
11. Since 2019 I have been retired from full-time NHS work and in receipt of my pension. However, I have carried on working in the following roles: as a Tribunal doctor for the Ministry of Justice, as a Second Opinion Approved Doctor for the Care Quality Commission, and in private practice undertaking medicolegal work (e.g. drafting psychiatric reports for legal proceedings). I have also worked as a Locum Consultant Forensic Psychiatrist in various posts as follows: Rampton Hospital (November 2019-2020 and January 2023-September 2023), Humber Centre Secure Unit in Hull (November 2020-August 2021), St Andrews Medium

Secure Unit in Northampton (September 2021-August 2022), remote ADHD clinic (2023-2024).

Interaction with VC

12. At the time of my interaction on 8 August 2023, I was a locum Consultant Forensic Psychiatrist at Rampton Hospital (in the Mental Health Directorate). VC, who was in Rampton Hospital's catchment area, had been referred for assessment and potential admission to high secure psychiatric care.
13. VC was referred for a high secure psychiatric assessment on 12 July 2023.
14. I exhibit the emails relating to the arrangement of VC's assessment to this statement. Having read the emails, I can see that I took the referral on 17 July 2023.
15. I can confirm that I then assessed VC at HMP Manchester on 8 August 2023.
16. My Psychiatric Assessment Report is dated 11 August 2023 and annexed to this statement [NHFT00002546]. I confirm that this is an accurate copy (bar the redaction of the NHS number), and that all the details of my assessment and time with VC are included.
17. I was told that VC's NHFT records were 'embargoed'. Rather than delay my assessment waiting for these to be provided, I chose to assess VC on the information available.
18. It is not unusual to not have had access to GP records for prison-based assessment. These are often procured later, after an admission, and by the Rampton Hospital medical records/Mental Health Administration team.
19. As set out at page 3, paragraph 9 of my report, I also had not seen the case summary, indictment or depositions relating to the alleged offences in June

2023. I would not necessarily expect to have depositions, indictment or case summary for an NHS-based assessment, especially for a remand prisoner. These are more often available to those assessors providing psychiatric reports for the court case (whether instructed by the CPS, Court or Defence).

20. Such documents can be helpful because they can include 'evidence' such as police interviews, police body-worn camera footage and forensic medical examiners or liaison mental health staff assessments. These can offer additional information about a defendant's mental state at the time of, or shortly after, arrest and in custody.

21. I exhibit emails relating to information received about VC (including access to VC's records) to this statement as well as my preliminary view following my interaction with VC.

Notes by Staff Nurse Ezekiel on 8 August 2023 [NGPF0003167, page 54]

22. These notes accord with my recollection. However, the note on 8 August 2023 only refers to a "psychiatrist". Assuming that another psychiatrist did not assess VC on that day, this is likely a reference to myself.

23. The notes make no additional comments about VC's mental state. Therefore, and based on my assessment, I cannot comment further.

Discussions with Janet Dale and Dr Kripa Ullal

24. I emailed Janet Dale on 9 August 2023 [NGPF0003167, pages 55-56]. I have nothing to add to the content of this email, and which I later noted in my assessment report. It reflects my discussion with Ms Dale and with Dr Ullal.

25. It has always been my practice to provide a preliminary opinion to prison-based clinicians, either by phone or email, and in advance of my final assessment report being sent to them.

26. As I was shown some of VC's letters which I thought were useful in helping to understand VC's inner world and mental state, but was unable to fully read them within the prison or make notes, Ms Dale was helpful in later sending me the letters.

Why VC was not transferred to a secure hospital until 1 November 2023

27. I am not able to specifically assist the Inquiry as to the reasons for this. However, if I was to speculate there may be two reasons as follows.

- a. There are sometimes delays in transfer due to the unavailability of a high-secure hospital bed.
- b. In the case of VC, as I hinted in paragraph 161 of my assessment report, there may have needed to be discussions at case manager and hospital level about the appropriateness of admission to Rampton Hospital, given that it is part of NHFT and the sensitivities of the then-alleged offences having occurred while he was under the care of the local Nottinghamshire Healthcare service.

Social Work Assessment of VC on 16 August 2023 at HMP Manchester by the social care team from Rampton Hospital [NGPF0003167, pages 266 and 268]

28. I was aware of this visit in principle because a social work review is always part of the assessment process. However, I was not specifically aware of the timing.

29. I do not recall contributing to this assessment.

30. I had email correspondence with my social work colleague Emily Doherty between 8 August 2023 and 23 August 2023 about her social work assessment and was able to read her initial draft. These emails are exhibited to this statement.

31. I am not aware of any other social work assessment / visit with VC whilst in prison.

Further contact with VC

32. I had no further contact with VC after my assessment on 8 August 2023.

33. I exhibit emails relating to the sharing of my report to this statement.

Statement of truth

I believe the content of this statement to be true. I understand that proceedings may be brought against anyone who makes, or causes to be made, a false statement in a document verified by a statement of truth without an honest belief of its truth.

Signed:

GRO-B

Dated: 13 February 2026
