

Witness Name: Colin Michael Wilderspin

Statement No: WITN0224038

Dated: 09/07/2026

THE NOTTINGHAM INQUIRY

SIXTH WITNESS STATEMENT OF COLIN MICHAEL WILDERSPIN

I, **Colin Michael Wilderspin**, of Nottingham City Council, Loxley House, Station Street, Nottingham, NG2 3NG **will say** as follows:

- 1 I am employed by Nottingham City Council as the Strategic Director of Communities and have held that position since December 2023.
- 2 I make this statement in response to the Rule 9 request from the Nottingham Inquiry ("the Inquiry") dated 4 June 2026.
- 3 Where the contents of this statement are within my personal knowledge, it is true. Where it is outside my personal knowledge, but derived from other sources, it is true to the best of my information and belief.

CCTV 'Follow Me' Functionality

- 4 I am asked to outline the data recording processes in respect of CCTV footage displayed on the 'Follow Me' server on the morning of 13 June 2023, including when this was activated and for which cameras.

- 5 Data stored on the 'Follow Me' server are normally retained for a period of three years before being deleted in accordance with Nottingham City Council's Data Protection Policy [NOCC0000001].
- 6 However, the 'Follow Me' server was replaced in February 2025 during a programme of equipment upgrade works. All historical data saved to that server, including data from the morning of 13 June 2023, were automatically deleted unless specifically marked for retention.
- 7 Accordingly, I am unable to confirm which cameras were displayed on the 'Follow Me' server on the morning of 13 June 2023 and at what time the CCTV footage was displayed.
- 8 TIS have confirmed that the retention policy adopted by TIS is based on the Nottingham City Council data retention policy. TIS has also confirmed that it installed the CCTV system for Nottingham City Council with the storage retention default as per factory settings which is to record footage until hard drives are full and to then overwrite. Nottingham City Council has asked TIS to confirm whether this 'overwrite' function also applies to the 'Follow Me' data. At present, that clarification is outstanding, but I will provide a further statement once a response is received.

TIS Implementation Plan and Service Level Agreement ("SLA")

- 9 I exhibit at [WITN0224039] a copy of the Total Integrated Solutions ("TIS") Implementation Plan. This spreadsheet has been created to keep track of outstanding actions and document progress in the installation, configuration

- and deployment of the Physical Security Information Management (“PSIM”) software. Almost all actions have been completed at the time of writing.
- 10 There is only one outstanding item that could not be integrated into the PSIM software. This is due to the Skidata car parking system, which has strict security restrictions that prevent the integration of parking operations into other workstations in the CCTV control room.
- 11 There is in place an NEC3 Term Service Short Contract between Nottingham City Council and TIS which, among other things, sets out the terms of cover and the service levels with which Nottingham City Council and TIS are expected to comply. I exhibit that at [WITN0224040] [WITN0224041] [WITN0224042].

BT faults

- 12 I have been unable to locate any records of faults raised with BT during May and June 2023. Although the issue affecting the analogue CCTV camera system, may have been related to a BT fault, TIS Engineers are also able to investigate and address such faults without the need for a BT Engineer to be present, nor is there necessarily a need to escalate a call to BT to action.
- 13 TIS have also confirmed that it has not received any responses directly from BT for the period concerned.

Statement of Truth

I believe the contents of this statement to be true. I understand that Proceedings may be brought against anyone who makes, or causes to be made, a false statement in a document verified by a statement of truth without an honest believe of its truth.

Signed: **GRO-B**
