

Witness Name: Jeffrey Julious

Statement No: WITN0471001

Dated: 27/07/2026

THE NOTTINGHAM INQUIRY

FIRST WITNESS STATEMENT OF JEFFREY JULIOUS

1. I, Jeffrey Julious, of Nottinghamshire Police, Sherwood Lodge, Arnold,
Nottingham will say as follows: -

INTRODUCTION

2. I am Police Staff Investigator Jeffrey Julious. I am currently attached to the
East Midlands Special Operations Unit (EMSOU) Major Crime Unit based
at Radford Road Police Station, Nottingham.

3. This witness statement is made to assist the Nottingham Inquiry (The "Inquiry") with the matters set out in the Rule 9 Request dated 23rd June 2026 (the "Request").

MY BACKGROUND

4. I served as a Police Officer from March 1998. I worked on the City Division Criminal Investigations Department (CID) from 2006 and then I was posted to the regional Major Crime Unit (MCU) in 2014. I retired as a Police Officer in 2016.
5. In 2017, I gained employment as a Warrants Officer for Nottinghamshire Police and then started my current role as a Police Staff Investigator (PSI) on the MCU in May 2023.

SEARCH OF HOLDALL RECOVERED FROM 165 BURFORD ROAD, FOREST FIELDS, NOTTS

6. I have been asked about my involvement and actions during the search of a holdall recovered from 165 Burford Road in September 2023. On Wednesday 13 September 2023, I was allocated Action 837 from the

Operation Hendrix investigation. The text of this action was, "Officer to search, separate and record contents of bag DAV 1001" [NGPF0001674].

7. At 17:30 hours on the same day, I commenced a search of Police Item DAV 1001, which was a holdall containing items.
8. The holdall was in a sealed exhibit bag. To the best of my knowledge, I was the first person to search this item.
9. I personally did not communicate with Detective Superintendent Sanders regarding these items. I would have liaised with my line manager, Detective Sergeant (DS) 568 Adam Cooper about this Action, including the evaluation of the sketch pad and notebooks.
10. I am not able recall specifically what conversation we had. I seem to recall that I briefly showed DS Cooper some of the pages in the books and he agreed that none of the notes appeared relevant to the investigation.
11. The sketch pad and notebooks were each scan read through by myself. I do not remember any items being in Portuguese.

12. After completing a search of Police Item DAV 1004, "DOCUMENTS" I concluded that there was nothing of any relevance towards the investigation, as stated in my Officer's Report [NGPF0003748]. The bank statements were dated from 2010 to 2014 and the Lloyds Bank letter was dated 2022. Again, these items would have been discussed with my line manager.
13. The "Numerous notes of a mathematical nature" would be as I saw them. So, I would say that would be an accurate description of them.
14. I have been asked what efforts I made to consider the evidential value of ripped paper found in a bin in the yard of the property. My response is that I have no knowledge or recollection of this item. I also don't have any recollection of examining any documentation other than what was in the holdall.
15. The correspondence from Nottingham Magistrates and Dr Lloyd were found in the holdall and are referred to in my statement dated the 14th of September 2023 [NGPF0002916]. I understand that copies of the correspondence have been provided to the Inquiry.
16. The items I referred to as exhibits are listed in my statement and the other items are mentioned in my Officers Report.

17. The practice and procedure that I followed in searching the bag and cataloguing the contents was my own practice and procedure that I followed when undertaking this type of task.
18. In July of 2026 I was made aware by officers undertaking work in support of the Inquiry that DAV 1001 had been opened in order to photograph the contents for the Public Inquiry.
19. I was informed that, in the process of that being done, a Nokia mobile phone and a battery were located in an end pocket of the bag. That is the first time that I became aware of the existence of a phone.
20. I don't recall in what area of the bag I found all of the items listed on [NGPF0002916], but I listed them in detail.
21. I don't recall seeing the Nokia phone or battery. If I had seen the phone I would have logged it, as I did the other items contained within the bag DAV 1001.
22. To the best of my recollection and belief I searched the bag thoroughly.

23. I have no explanation as to how I did not see the mobile phone during my initial search on 13 September 2023. I have to assume that I may have completely omitted to search that particular pocket, or that I did open it and I missed the phone and battery within it.
24. I cannot explain how that might have occurred, other than oversight, or that I didn't check the bottom of the bag thoroughly enough. I feel very embarrassed that this might be the case.
25. If I had located it, it would have been removed and allocated a new exhibit number, as were the other items detailed in my statement [NGPF0002916].
26. I submitted my witness statement [NGPF0002916] and Officers Report [NGPF0003748] into the HOLMES system to finalise Action 837 [NGPF0001674] on the 14 September 2023. I am not in a position to say why items were not specifically referred to in the Unused Schedule. On the MCU we have our own dedicated Exhibit and Disclosure Officers.

STATEMENT OF TRUTH

I believe the content of this statement to be true. I understand that proceedings may be brought against anyone who makes, or causes to be made, a false statement in a document verified by a statement of truth without an honest belief of its truth.
