## 1. Introduction

This is the ninth Welsh Language Scheme Annual Monitoring Report prepared by the Judicial Appointments Commission (JAC) and it covers the period from 1 April 2024 to 31 March 2025. The report demonstrates the progress we have made in implementing our scheme since it was endorsed by the Welsh Language Commissioner's Office in May 2016. The scheme is available on the JAC website:  
<https://www.judicialappointments.gov.uk/welsh-language-scheme>.

The JAC was previously covered by the Ministry of Justice's Welsh Language Scheme. We developed this voluntary, specialised scheme to better specify how we treat the Welsh and English languages. It explains how candidates for judicial appointment can communicate with the JAC in Welsh or English, according to their personal choice.

The scheme sets out how we give effect to the principle in Section 5 of the Welsh Language Act 1993 that, in the conduct of public business and the administration of justice in Wales, the English and Welsh languages should be treated on a basis of equality. The scope of our commitments should be interpreted as applying to those recruitment activities and services in Wales that we are able to control or influence.

## 2. Background

The JAC was established on 3 April 2006 under the Constitutional Reform Act 2005. The JAC is an executive non-departmental public body, sponsored by the Ministry of Justice. We select candidates for judicial office in courts and tribunals in England and Wales, and for some tribunals with UK-wide jurisdiction. Candidates are selected on merit, through fair and open competition, and we are committed to attracting applicants from as wide a field as possible. We work with a range of organisations to promote vacancies to eligible candidates.

The JAC launched its Welsh Language Scheme in May 2016, following a public consultation in October 2015. The scheme explains how we will treat the Welsh and English languages when assessing candidates' suitability for judicial appointment in Wales and explains that candidates will be able to communicate with us in English or Welsh, according to their personal choice.

### 3. Recruitment

The JAC is a London-based organisation of around 100 staff. It does not have a permanent delivery presence in Wales. The JAC's Welsh Language Scheme does not cover JAC staff recruitment as there are no identified Welsh language requirements for staff.

Where Welsh language skills are required for a judicial appointment, we are currently supported by members of the Welsh judiciary who sit on selection panels to assess Welsh language skills. Throughout 2024-25 the JAC has continued to conduct an open recruitment exercise to increase the number of lay panel members, and these new members joined the cadre throughout 2024-25, although no Welsh speaking members were appointed this year. Selection exercises where Welsh language skills are required are usually quality assured by the JAC Commissioner with special knowledge of Wales.

#### **Requirement for an understanding of the administration of justice in Wales**

An additional selection criterion is applied for vacancies in Wales. The criterion is approved by the Lord Chancellor, which was revised during 2024-25 and now states:

"Candidates for posts in Wales need to have an understanding of administration of justice in Wales, including legislation applicable to Wales and Welsh devolution arrangements".

Where candidates have applied for posts in Wales, a number of questions that are specific to each exercise are asked at the interview stage via a non-live video format, with candidates assessed on their understanding of relevant Welsh issues.

#### **Selection exercises 2024-25**

The JAC reports annually on the number of exercises completed within a reporting year.<sup>1</sup> The Welsh Language Scheme was implemented in May 2016 and was applied to selection exercises that went into planning stages from that time. This section details selection exercises that completed and reported from 1 April 2024 – 31 March 2025 to give an overview of judicial recruitment in Wales.

A total of 34 selection exercises were finalised and reported in 2024–25. The business area and the judiciary identify Welsh language requirements for vacancies, which the JAC then assesses candidates against. The JAC continues to run selection exercises where Welsh language has been identified as a requirement for one or more posts.

## 4. Monitoring the Welsh Language Scheme

### Selection exercises

The JAC's Welsh Language Scheme applies to selection exercises with posts in Wales that went into planning stages on or after May 2016. External advertising is only used by the JAC in exceptional cases. The 'advertising' section of our Welsh Language Scheme outlined provisions for any cases in which external advertising was used. External advertising was not used in any selection exercises which had posts in Wales over 2024-25.

Over the period 2024–25, we published Welsh translations of selection exercise material in the following exercises:
