New Root and Intermediate CA Certificates

Important: Do not remove or replace any existing mail infrastructure settings or configurations. The changes outlined in this document are required in addition to your current configuration.

Alongside your currently installed CJSN Root CA and Server Certificates, there are new Root and Intermediate CA Certificates to install:

- 1) **secure-email-root-ca.crt** - Downloaded from: <https://ca.cjsm.net/secure-email-root-ca.crt>
- 2) **secure-email-issuing-ca.crt** - Downloaded from: <https://ca.cjsm.net/secure-email-issuing-ca.crt>

The Root and Intermediate CAs are also available as a bundle at <https://ca.cjsm.net/secure-email-ca-bundle.pem>.

Please install these certificates as per the latest instructions from your mail infrastructure provider.

New IP addresses

The following IP addresses are in use by the CJSN Service:

- 51.140.32.204 (Current)
- 51.137.152.51 (Current)
- 16.60.86.115 (New)
- 18.135.95.179 (New)
- 3.11.51.41 (New)

Please make sure that all IP addresses including the three new IP addresses are added to any inbound routing configuration (CJSN > Your organisation), and any Security or Networking configurations you have.

Helpdesk Confirmation

Once the steps above have been completed, please notify the helpdesk.
